## DISORDERS IN INDIA

### Soldiers Confined To Barracks

London, July 25.  
The Under-Secretary for India, Mr. R. A. Butler, answered a question in the House of Commons regarding the reported incident near Jubbulpore, in India, in which British soldiers and Indian villagers were concerned. He said that the India Office had only so far brief telegraphic report of this regrettable incident but a more detailed account would be received when the local investigations had been completed. He read the official statement issued at Simla to the effect that, from reports received at Army Headquarters, the facts appeared to be as follows.

On July 17, a woman of the village of Karoli was frightened by a British soldier and fearing molestation gave alarm whereupon some villagers turned out and assaulted the soldier who was rescued by an individual from another village and is now in hospital.

Next night a party of men from his regiment raided another village, mistaking it for Karoli, and injured thirteen villagers, of whom one has since died.

The statement announces that as soon as the incident was reported the local military commander began investigation in consultation with the civil authorities and that in the meantime the regiment concerned has been confined to barracks.

British Wireless.

## RETURN OF THE HAPSBURGS

### Hopes On The Wane

Vienna, July 25.

The return of the Hapsburgs to the throne of Austria became less certain to-day in consequence of the decision of three provinces to renounce the Royal Family during the past twenty-four hours.

The province of Vorarlberg, for instance, promulgated a law which relates to the nomination of honorary citizens and which outrules Archduke Otto.

At the same time the Governor of Upper Austria issued a decree prohibiting Prince Otto's nomination, while the official Tyrolean newspaper "Bauernbote" says it is wrong to attempt a restoration of the monarchy.

It is pointed out in Vienna that the expression of these significant views and the very definite anti-monarchist moves would be impossible without the approval of the Government.

Reuter.

## U.S. SILVER POLICY UNCERTAINTY

Washington, July 25.

More than ever silver circles here are in the dark regarding the Administration's next move in its silver programme.

Confusion has been heightened by the split in the Senate Silver Bloc and the conflicting remarks of various Senators, some of whom appear to believe that President Roosevelt cannot compromise on the \$1.29 per ounce price made mandatory by legislation, but without any specific time-limit being fixed.

While the more aggressive silverites prepare for battle, to force unrestricted silver trading, traders generally are inclined to hold off pending developments. Some advance the theory that the Treasury might at present be carrying out the suggestion that it is able to stabilise the silver price at any desired level.

Reuter.

## DAIRY PRODUCE SITUATION

### To Be Thoroughly Reviewed

London, July 25.

Questioned in the House of Commons regarding the Government's policy for milk products, the Minister of Agriculture, Mr. Walter Elliot replied that the Government would review the dairy produce situation fully before next March, but as to the problem created by butter and cheese imports, they were of the opinion that should conditions warrant continued assistance to Home Industry, it could best be afforded by a system of duties or levies, though the possibility could not be excluded that some regulation of the market might sometimes be necessary.

The incidence of any such duty or levy would be adjusted to maintain the existing preferential margin for Empire supplies. The position of milk powder and condensed milk would receive separate consideration after the report by the Import Duties Advisory Committee.

## CANTON NEWS ITEMS

### Appeal To League Of Nations

(From Our Special Correspondent)

Canton, July 25.

Mr. Chou Lou, President of Sun Yat Sen University and leading member of the South-west Political Council, was in receipt to-day of a communication from the political department of the League of Nations saying that his cablegram of June 19 was received and is being studied by the League of Nations. The letter to President Chou was signed by Mr. Wou Shou Feng, Secretary of the League of Nations.

President Chou sent the cablegram to M. Joseph Avenol, Secretary General of the League of Nations, urging the League to take action to curb Japanese activities in China. A similar message was wired to Mr. Cordell Hull, Secretary of State in Washington, D.C. requesting him to summon the signatories of the Nine Power Treaty to offset Japanese activities in China. It is understood that Mr. Hull has forwarded the cablegram to signatories of the Nine Power Treaty.

#### Summer Precautions

Although a cool spell has set in after a week of intensive heat, precautions against the sweltering weather are ready. Each police station has a free medical section for the relief of those afflicted by diseases caused by the heat. In addition, each policeman carries a small zinc box on the belt, which contains Chinese medicine to treat emergency cases resulting from the heat. This prevents many sunstroke cases in the streets.

Canton has a clean bill of health, there being no epidemic this summer. Rich estate owners provide free tea outside of their premises and in street corners, while in the open spaces matchless shades are provided for the protection of poor people from the sun.

#### Mr. Sun Chia Che

Canton's leading diplomatist, Mr. Sun Chia Che, Director of the Consolidated Tax Bureau, will arrive Nanking to-day from Chengtu, where he interviewed General Chiang Kai Shek on financial and political questions. After remaining in Nanking for a short while, Mr. Sun will return to Canton.

Local leaders entrusted Mr. Sun with certain proposals to be submitted to General Chiang Kai Shek. It is not known whether Mr. Sun was successful in his mission. General Chiang referred

## ALUMINIUM AND ITS ALLOYS

### Their Mechanical Working Explained

Aluminium, from the machining point of view, ranks as a soft metal, but in certain directions this complicates its mechanical working, owing to the fact that it tends to clog such tools as twist drills, for example, and so prevent the heat generated at the cutting point from being carried away with sufficient rapidity. In general, the technique required approximates to that of working brass. Cutting tools for aluminium need a greater side and top rake than do those for cutting steel, and the edges must be kept at maximum sharpness. This can be attained by using a very fine abrasive wheel. The tools should have a front clearance of approximately 7 to 8 degrees, and a top rake from 40 to 50 degrees, though, slighter smaller angles than these may sometimes be desirable. The total angle of the tool-cutting edge will range from 40 to 55 degrees.

It is important that the cutting tool edges should be completely regular and sharp, with no notches, fish, or grinding wheel marks. Lathe tools should have a side rake of 10-20 degrees, a clearance of 6 degrees, and a top rake of 30-50 degrees, the entire angle of the tool-cutting edge being from 35 to 55 degrees. It is found that the chips of certain aluminium alloys do not break up readily enough, quicker curling and thus quicker breaking can be produced by reducing both top and side rake angles. Too great a reduction may impair the finish of the job, however, and regard should be had to this.

Drilling tools need a top rake of 12-20 degrees, with a front clearance angle of not more than 4 degrees. When circular-forming operations have to be performed, it is best to take a roughing cut and a preliminary, and complete the operation with a very light finishing cut with a former tool.

#### SPECIAL DRILLS

In drilling aluminium and its alloys, the trouble usually encountered is that the metal piles up at the cutting edges, with the result that the drill ceases to function, and if compelled, breaks. The proper type of drill for this work is one of special design with a quick spiral and an included point angle of 140 degrees. A speed of 100-200 feet a minute may be employed, or even more, according to the conditions.

Milling cutters for aluminium should be, for preference, of the type with coarse tooth spiral, and should have a good deal of top rake on the cutting edges. Nicked teeth in milling cutters are often useful in breaking up the chips. Inserted tooth milling cutters, given a good deal of side and top rake in the teeth, will be found quite satisfactory. Helical milling cutters will also do well on aluminium if proper top rake is given to the cutting edges. This applies also to those cutters whose teeth are staggered.

Sawing aluminium is another operation demanding care in tool design. The front of the saw teeth calls for adequate top rake and a certain amount of side rake. In many instances, according to the form of tooth employed: The hook angle should be 10-25 degrees. Care should be taken to avoid too rapid a feed of the saw, and for this purpose it will be found an advantage if the mechanism is furnished with a positive feed. No hook should be given to the teeth of saws for hand feed, but it is important to avoid giving them a negative rake.

#### SAW TEETH

The saw teeth must be given proper clearance on the sides to avoid sticking or retardation in the cut, which generates excessive heat. Coarse teeth are desirable, with rounded gullets and clean edges, so as to facilitate chip removal. Speeds employed, in the case of circular saws, should be from 12 to 15,000 feet a minute. In band-sawing, high speeds can also be obtained, and are desirable, if they can be given by the machine without excessive vibration, leading to tooth breakdown. The feed should be fine as compared with the peripheral speed, thereby preventing excessively large chips. A suitable coolant should always be employed for heavy sawing of aluminium and alloys of aluminium. Mineral oil, let down with kerosene, can be

used, or, alternatively, a soluble oil-cutting compound.

Either the wide (tungsten carbide), or the fuse-welded super-high-speed steel tools can be employed with success for machining aluminium. Where the aluminium material to be dealt with is high in silicon, the wide tools are, in fact, more suitable than steel. But care must be taken, nevertheless, to see that the proper shapes are given to the tools.

#### GENERAL RULE

It is difficult to lay down any hard and fast rule for the speeds and feeds to be employed in the working of aluminium and its alloys. It can be said that, on the whole, fine to medium feeds combined with high speeds are best. The feed may range from as much as 1 in. to as little as 3,000 in., depending on whether or not the cut is a roughing or finishing one. Actual speeds and feeds vary according to the type of material being worked, the nature of the work, the form and kind of tool, the coolant employed, and the design and type of machine driving the tool. A good general rule is that as the feed decreases, the speed should rise, and that the greater the curl on the chip, the less should be the speed. Speeds and feeds can also be affected by the thickness or heaviness of the cutting compound; the lighter the feed, the lighter the speed. If it is desired primarily to remove a large quantity of metal in a given time, this is best attained by raising the speed rather than using a heavier feed. Special care should be devoted to the prevention of all chatter, which ruins the cutting edges of the tools.

In working aluminium mechanically, a coarse feed is always liable to cause the metal to expand, and this may, if not watched, cause the work to finish wrongly to size. Before taking the final finishing cuts, therefore, the piece or part should be given a chance to cool down. It can then be measured and finished to accurate dimensions.

While aluminium alloys can sometimes be machined dry, assuming that properly designed tools have been employed, it is almost always preferable to use a cutting compound. A soluble cutting oil, or a mixture of lard oil and kerosene oil, the proportions of each varying according to the type of work and the speed and feed, will be found quite suitable. Pure lard oil is excellent for the heavier work.

In grinding tools for work on aluminium, care should be taken to see that the correct kind of abrasive wheel, grain size, and bond, are used, while the wheel speed should also be accurate. On all these points the abrasive wheel makers will give expert and sound advice, and should be consulted.

#### ELECTRICALLY CONSOLIDATED CONCRETE

A novel method of consolidating concrete by electrical methods has been developed in which the concrete is bonded to the structural steel by means of an electrical vibrator. Prior to its use ten to twelve workmen were employed in running 500 to 600 yards of concrete per day. The same amount of work was done by a skilled mechanic and four labourers with the vibrator. The vibrator consists of a motor and a vibrating head carried on a welded frame fitted with clamps so that the machine can be clamped to the steel structure. The 3-h.p. driving motor gives sufficient power to set into vibration an 18-in. steel girder. The motor is spring suspended and drives an eccentric weight at 3,600 r.p.m. about an axis parallel with the structural member to which it is clamped. The rapid rotation of the eccentric weight produces the required vibration. An adjustable eccentric is fitted to regulate the degree of vibration to suit the size and weight of any beam from 6 in. to 18 in. wide. In consolidating the concrete no special precautions or preparations are made. Without any preliminary spreading the concrete is dumped

## ENGINEERING AND BUILDING

### SEPARATION OF DUST BLAST - FURNACE GAS CLEANING SOFTENING OF WATER

#### By Electrostatic Methods

For the removal of dust, as well as water, tar and other liquid particles from air or gas, the most efficient method is undoubtedly the electrostatic, originated by Sir Oliver Lodge. Extensive experience has also been obtained with this principle, especially in the case of the "Lodge-Cottrell" equipment, now represented by over 3,000 electrofilters, and 95-98 per cent of the total dust is removed from a "gaseous" medium, irrespective of the size of the particles. This is an important practical point, since the removal of particles below 10 microns (1 micron equals one thousandth part of a millimetre), practically in the "cloud" stage, is extremely difficult by ordinary methods, and especially when huge volumes are concerned, such as blast-furnace gas and the waste combustion gases from power stations amounting to about 500,000 cubic feet at about 250-350 F. per ton of coal burnt.

In the past there seems to have been a general impression that electrostatic methods of dust separation, in spite of their admitted efficiency, are costly in power consumption. This, however, is not correct, the total net power consumption being in many cases considerably less, for example, than either centrifugal or water-washing methods.

Because of the effective co-operation of the five main companies operating the "Lodge-Cottrell" process in Great Britain, the United States and Germany, with pooling of all patents and experience, the electrical power required now averages only 11-12 k.w.h. per 1,000,000 cubic feet of air, combustion gas, or other medium.

#### PRACTICAL PIONEER

The practical pioneer in this field is Sir Oliver Lodge, whose work on the subject dates back to 1883, and the modern "Lodge-Cottrell" service represents an association of the patents, researches and experience of Sir Oliver Lodge and his associates in Great Britain, Dr. F. G. Cottrell in the United States, and Dr. Erwin Moller in Germany, the British company being Lodge-Cottrell, Ltd., of Birmingham (George Street, Parade) and London, which developed from the original Lodge Fume Deposit Company.

Essentially the basic principle consists in the use of chambers or towers, made of, say, concrete, through which passes the dust or fume-laden air or gas. In the towers is a series of vertical metal plates or pipes, known as collector electrodes, which are connected to the earth. In the narrow spaces between these plates, or in the pipes, hang wires or rods with numerous points, forming discharge electrodes. The latter are coupled to a high-tension direct-current supply, so that a brush discharge takes place, giving a glow of light, or corona, and creating a powerful electrostatic field. As the gases pass through this field all the solid or liquid particles are electrified, and repelled against the earthed collector electrodes, that is, the pipes or plates. Here they give up their charge and fall down to the bottom of the tower into a hopper, or partly adhere to the plates while the dust-free gas passes on. For this reason the collector electrodes are equipped with motor-driven rapping hammer to shake off the dust, while the high-tension current is produced by stepping up the ordinary low-tension supply in a special transformer and then converting it to direct current by a motor-driven rectifier.

As a result, well over 90 per cent, and often more than 95 per cent, of the total dust in the gases is separated. In the dry state, as already indicated, irrespective of the size of the dust particles or the number per unit volume.

fairly evenly on the floor and operating the vibrator for 15 seconds is sufficient to spread the concrete.

#### Plant In South Africa

The efficiency of gas cleaning, and dust elimination generally, by electrostatic means is well illustrated by a plant at the new steel work now in operation at Pretoria, of the South African Iron and Steel Industrial Corporation, which has involved a capital outlay of over £5,000,000, mostly provided by the Union Government. The normal production is 150,000 tons of steel per annum, and included is a blast furnace of 500 tons of pig iron per 24 hours capacity, along with a by-product coke oven plant of 57 ovens, for the production of 450 tons of coke per 24 hours, using a blend of 25 per cent. Natal coal and 75 per cent. Transvaal coal. Also there are two steel melting furnaces, one steel mixer, and heavy and light rolling mills, in addition to sheet mills. The iron ore used being a local Pretoria product (48 per cent. Fe), which is blended with high-grade Rustenberg hematite (68 per cent. Fe) from the Transvaal, the rated performance being 17 cwt. of coke per ton of pig iron.

For the cleaning of the blast-furnace gas an electrostatic plant on the latest 2-stage principle is installed, supplied by Lodge-Cottrell, Ltd., of Birmingham, and London (Bush House), cleaning down to much lower than the ordinary gas engine standard of 0.0088 grains of dust per cubic foot. In general the plant comprises a pre-cooler, three main dry electrostatic treaters, three slat cooling towers, and three wet electrostatic treaters, along with the necessary fans, valves, pipes, sludge pumps for the settling ponds, transformer house, and other accessories. This is generally on the same lines as the "Lodge-Cottrell" electrostatic cleaning plant just recently put into operation in India at the Tata works Jamshedpur, and the installation that has been completed in England at the Corby Works (Northants) for Stewarts and Lloyds, Ltd. In this latter connection also it may be stated a unit has now been ordered to bring up the total capacity to 8,000,000 cubic feet of gas per hour.

#### NO TRACES OF DUST

The results already obtained as regards cleaning of the blast-furnace gas at Pretoria have surpassed expectations and repeated analysis of large samples of the gas (360 cubic feet and upwards) show no traces of ore dust. Thus the amount of soluble material caught by the filter of the testing apparatus averages 0.0004 grains per cubic foot, or less than one-tenth of the guarantee (0.004 grains per cubic foot).

It may be stated also that on the 2-stage principle of cleaning the hot blast-furnace gas, at about 450 deg. Fah., is treated in the first stage of the electrostatic plant, when about 97-98 per cent. of the total dust is removed in the dry state. On the usual lines the gas passes through chambers containing vertical earthed collector plates and discharge electrodes connected to high-tension current supply at 60,000-70,000 volts, stepped up from ordinary low-tension supply in a special transformer and converted to direct current by motor-driven rectifiers. The dust particles are ionized and repelled to the collector chambers, which are provided with rapping hammers to discharge the accumulated material. In the second stage all the suspended moisture and the remaining 2-3 per cent. of the total dust is removed, and the final cleaned blast-furnace gas is dry, cold (about 75 deg. Fah.) and dust-free, generally containing as low as 0.002 grains of dust per cubic foot, or even below this figure, as at Pretoria, well below the usual guarantee of 0.004 grains. Gas with this extreme degree of cleanliness is, of course, suitable for any purpose, including modern close packing for the stoves, and general combustion using the latest designs of completely automatic burner control gear.

#### On Base Exchange Principle

One of the main advantages of water softening on the base exchange principle is simplicity, the water merely running through a granular product contained in closed cylinders and emerging with complete zero hardness.

If the water contains much temporary hardness, however, (calcium bicarbonates), the zero hardness water is alkaline because a corresponding amount of sodium bicarbonate is formed by the reaction with the base exchange material. This is not suitable for towns supply, and when not much temporary hardness is present the remedy is to by-pass part of the hard water so that the final blended water, as supplied to the consumer, contains any desired degree of hardness, with, of course, less alkali.

Base exchange softening lends itself easily to such control, since it is carried out with entirely closed pipe circuits. The latest scientific principles for the special conditions of towns water supply are well illustrated by two base exchange installations that have been completed in England at Harpsden (Shiplake and Greys Road) for the Henley-on-Thames Water Company, and the same principles, can, of course, be used for boiler feeding and other industrial applications. It was necessary to find an auxiliary supply of water in the above district, and an artesian bore, 12 in. diameter has been sunk to a depth of over 200 feet, which at Shiplake is being pumped by means of two plunger pumps, each of 5,000 gallons per hour capacity, representing a total head of 250 feet, driven by automatically-controlled Diesel engines, each of which is 15 h.p. These pumps discharge the water through a base exchange softening plant into four horizontal closed steel cylinders, each containing compressed air, which, in turn, discharges the water to the mains.

#### VERTICAL CYLINDERS

The air pressure within the cylinders varies according to the amount of water drawn off by the consumers, and when it falls or rises or other, or both, of the Diesel engines automatically start up or close down as required, so as to maintain a constant supply of water.

The base exchange plant has been supplied by the Paterson Engineering Co. Ltd., of London (Windsor House, Kingsway, W.C.2), and consists of two vertical closed cylinders, 5 ft. 4 in. diameter, filled with the firm's "Basex" softening material. The water from the borehole is 21 degs. total hardness, and it is necessary to deliver the softened water to the consumers at 7 degs. total hardness. Accordingly, the main supply zero hardness water from the two softeners is mixed continuously in the pipe circuits before reaching the compressed-air tanks by means of suitable automatic valve gear, adjusted as required, with a portion of by-passed hard water, so that the final water is always 7 degs., each of the softeners also being fitted with a water meter.

The duty of the softening plant is 24 hours continuous pumping by one pump, or 12 hours by two pumps, and the total capacity of the plant, as already indicated is 10,000 gallons of softened water per hour, with 90,000 gallons between regenerations. Included also are the necessary brine tanks for reviving the base exchange material.

The Greys Road plant is on the same lines, consisting of three units, each 6 ft. diameter, having a duty of 30,000 gallons of water per hour, reduced from 21 degs. hardness, to zero hardness and blending, to give a 7 degs. water, the duty between regenerations being 180,000 gallons.

Important "Lodge-Cottrell" plants also are now in course of erection in England at the Hams Hall and the Nechells power stations (Birmingham) for the removal of dust from chimney gas in connection with pulverised fuel firing.

Saturday, July 27.—Feast of Our Lady of Mercy. 3 p.m. Meeting of St. Teresa's Chinese Young Men on the Society's Premises for visit to the sick. 8 p.m. Meeting of St. Teresa's C.Y.M.S. Music Circle, on the Society's Premises.

Sunday, July 28.—Seventh Sunday after Pentecost: 7.30 a.m. First Mass with Sermon in English. 9.30 a.m. Second Mass with Sermon in English, followed by Benediction of the Most Blessed Sacrament.

Monday, July 29.—7.30 p.m. Meeting of St. Teresa's C.Y.M.S. Study Circle (English Section) on the Society's Premises. Mr. Francis Loo will read a paper on "The Possibility and Facts of Revelation."

Tuesday, July 30.—4.30 p.m. Little Flower Choir Practice.

Wednesday, July 31.—3 p.m. St. Teresa's Chinese Young Men Choir Practice.

AUGUST—Month of Devotion to the Sacred Heart of Mary.

Thursday, August 1.—6 to 7 p.m. Holy Hour with Sermon.

Friday, August 2.—First Friday—Feast of St. Alphonsus de Liguori, Bp. and D.

Novena to St. Philomena begins to-day at 7.30 a.m.

5.30 p.m. Devotions for the Portuncula and Benediction.

Week-days: Masses at 6.30 a.m. and 7.30 a.m.

Confessions are heard daily before and after Masses in Chinese, English, Italian, French, Spanish and Portuguese.

Special time for Confession from 4 to 6 p.m.

### FIRST CHURCH OF CHRIST, SCIENTIST.

Macdonnell Road, below Bowen Road Tram Station.

Sunday, July 28

Sunday Service—11.15 a.m.

Subject:—"TRUTH"

The Sunday School is held on Sunday Mornings—10 o'clock.

Wednesday Evening Meeting—8.00 p.m.

Reading Room at above address open: Tuesday and Friday—10 a.m. to Noon; Monday, Thursday—5.30 to 7.00 p.m.

The Public is cordially invited to attend the services and visit the Reading Room

### UNION CHURCH

KENNEDY ROAD

Sunday, July 28

Morning Service—10.30 a.m.

Evening Service—6 p.m.

The preacher at both services will be the Rev. John Foster.

The morning sermon will continue the series of studies in the meaning of Christian discipleship. Its subject is "A Dead Hero or a Living Lord?"

After the morning service the Sacrament of Baptism will be administered.

Every Tuesday in the Church Hall at 7.30 p.m. the Soldiers' and Airmen's Christian Association meets.

The congregation is asked to remember in prayer the Rev. Kenneth Dow of Glasgow, a minister of the Church of Scotland, who has received a call to the pastorate of this church.

A MALARIA CONTROL COURSE

A record gathering of 100 laymen is attending a malaria control course at the London School of Hygiene and Tropical Medicine. This is the eighth course of its kind, and those attending are given practical instruction with regard to the various malaria problems which industrial, planting, mining, and development companies have to solve in order to keep their staffs and labour forces healthy. Those present include planters from Assam, Doonars, Sylhet, Southern India, Ceylon, and British Guiana, mining and civil engineers from South and East Africa, the Gold Coast, Nigeria, Rhodesia, Sudan, and the Federated Malay States, missionaries from India, West Africa, and Jamaica, and Imperial Airways trainees proceeding to all parts of the Empire. The course, which lasts a week, was inaugurated in 1929 by the Ross Institute and is under the direction of Sir Malcolm Watson.

## BRITISH SHIPBUILDING CRISIS

### Some Signs Of Improvement

(BY SIR ARCHIBALD HURD)

Because about one-half of the merchant shipping now under construction in the world's shipyards is being built in the United Kingdom, the impression prevails that the British shipbuilding industry is prospering. The facts of the situation do not, however, support any such conclusion.

Early last year there were signs of revival owing principally to the resumption of work on the Cunard-White Star liner "Queen Mary" and welcome orders for new passenger and cargo liners for the Empire trade routes which, following upon the vessels built for the Canadian Pacific Railway Company, were placed by the Union Castle Company, the P. & O. Company, the Commonwealth and Dominion Line, the Blue Star Line and the Shaw Savill and Albion Lines. Most of these ships have been completed and shipbuilders are finding it difficult to fill the empty slipways.

Although only half the number of workers that were on the books of the yards, after the Great War are now available (so great has been the drift away to other industries), the unemployment among the remainder ranges from about 20 per cent. in the busier districts to 61 per cent. on the North East Coast—in other words on the banks of the Tyne. Wear and Tees. In these yards tramp ships used to be built by the score, but in the last five years only 55 such vessels have been constructed. Indeed, owing to the fall in freights payable on bulk cargoes, tramp shipowners have declined to invest fresh capital in tonnage, even though the modern ship is much more economical in operation than the ship of 20 years ago, and the British Government has set aside £10,000,000 on loan to encourage the building of cargo vessels.

SCHEME OF RATIONALISATION  
British shipbuilders, it should be explained, exhibited great foresight after the Great War in adjusting their industry to the new conditions. Before there was a general appreciation of the necessity of rationalisation in British industry, they formed an organisation for the purchase of redundant yards with a view to dismantling them. The Government's aid was not sought, but the cost was met by a levy paid by the shipbuilders themselves. When this process of rationalisation began the capacity of the industry for the production of merchant ships was, in round figures, about 3,000,000 gross tons per annum. A reduction has been effected which has brought the figure to 2,000,000 gross tons. In the opinion of one of the leaders in the movement, "under existing conditions, and in spite of the very valuable work which has been carried out, the outlook for the industry at large is not hopeful, seeing that, on the average, it cannot hope even to attain a condition of operation at half capacity."

A conception of the situation which now exists in the British shipyards is conveyed by the record of the past few years. Taking 100 as representing the merchant tonnage launched in the year before the outbreak of the Great War, the position during the last six years has been as follows:—1929, 79; 1930, 76; 1931, 28; 1932, 10; 1933, 7; 1934, 24. In these circumstances no shipbuilding firm has made a profit, for owing to the shortage of orders competition has been on an uneconomic basis.

THE DEPRESSION  
Shipbuilding is obviously dependent on the prosperity of shipping and, in spite of the subsidy of £2,000,000 recently granted by the British Government to assist tramp owners and the efforts of the Conference to rationalize tonnage, the shipping industry is still in sad distress. Even in trade to

and from British ports, foreign vessels, owing either to subsidies or low running costs, are obtaining more and more of the cargoes. This tendency is increasing month by month, assisted by the decision of certain foreign Governments that goods which they buy, particularly coal, shall be carried in their own ships. In the circumstances, British shipowners have been under small temptation to lay the keels of new ships, while the policy of national self-sufficiency adopted by so many nations and the better arrangements of others, such as the agreement between Norway and Germany to exchange oil for ships, has robbed British shipyards of orders which in ordinary circumstances would have been received, by reason of price and quality.

DOWNWARD TENDENCY  
The decline in the output of British yards has varied from year to year since pre-war times, but the general tendency has been downwards as the following figures of the British and world output reveal:—

Date	British Tonnage	British percentage of world total
Dec. 1911	1,519,052	64.5
Dec. 1912	1,570,065	58.0
Dec. 1913	1,956,606	58.7
Dec. 1930	908,902	39.1
Dec. 1931	400,505	28.5
Dec. 1932	225,497	29.4
Dec. 1933	331,541	43.8
Dec. 1934	596,834	47.7
Mar. 1935	555,815	43.8

These statistics reflect the stimulation of building in foreign countries by means, on the one hand, of shipping subsidies and, on the other, of direct State aid in support of national shipbuilding at the expense of British shipyards, which do the work much cheaper. The over-production of ships under foreign flags has been entirely responsible for the over-supply of tonnage and that, in its turn, has depressed freight rates to such an extent that goods on most of the trade routes have been carried at uneconomic rates for several years past.

(To Be Continued).

### BOY SCOUTS

Leave For America

Shanghai, July 23.

A group of thirteen Chinese Boy Scouts, under Messrs. Yen Chia Lin and Meng Shu Peng, arrived in Shanghai from Nanking on Sunday night and are leaving to-day by the Dollar S.S. President Grant for America, in connection with the 25th anniversary of the foundation of the American Boy Scouts. The party will proceed to Washington after arriving in America.

Yesterday, the party were entertained to lunch by the Nanyang boy scouts at the I-Chia-Chun Restaurant, Foochow Road, while the local Chinese scouts and educational authorities gave a reception for them at the Chinese Y.M.C.A. last evening. The party boarded the President Grant last night. Members of the party have been selected from among the scouts of Shanghai, Nanking, Hupeh, Chekiang, Hopei, Soochow, and Peiping. They will spend about three weeks in Washington, during which time they will study the conditions of American scout organizations.

## CINEMA TRADE NOTICES

## THE MYSTERY OF EDWIN DROOD

The largest motion picture set since the making of the famous "Hunchback of Notre Dame" was built at Universal studios for the filming of "The Mystery of Edwin Drood," the sensational and spine-tling mystery drama which comes to the King's Theatre next Sunday with Claude Rains in the starring role, support by a brilliant cast.

An entire English village of the Victorian period was built, streets, stores, a beautiful cathedral, a young ladies finishing school, all absolutely authentic as to every particular were constructed, and when one stepped into the village streets he felt as though he had been transported to another country.

The furnishing of the interior settings for this picture, which is laid in the period of 1844, required months of research and search for the proper furnishings. There is one living room, for example, that is decorated for the Christmas holidays. Great care had to be taken to make certain that everything in that room was absolutely true to the time.

## CARNIVAL

"Carnival" is in town and to-day is your last opportunity to see this Columbia production at the Queen's Theatre. An interesting story of a puppeteer played by Lee Tracy, this picture is said to possess thrills, romance and action enough for everyone in the family. Jimmy Durante, Sally Eilers and Little Dickie Walters, 23-year old child who makes his outstanding debut in this picture have the principal parts in this production. Walter Lang directed from the story written by Robert Riskin, who gave us such famous hits as "It Happened

## BORN TO BE BAD

A motion picture camera in the role of private detective. It may sound fantastic, but it is based on fact. A camera is seen in this capacity in "Born to Be Bad," the 20th Century picture showing at the King's Theatre, with Loretta Young and Cary Grant sharing stellar honours.

In this original story by Ralph Graves, a motion picture cameraman is employed furtively to take motion pictures of a small boy at play fighting, wrestling, running and romping.

Later the pictures are shown in a courtroom to the utter consternation of the boy's pretty and unscrupulous young mother, played by Miss Young, who has sued a wealthy man for heavy damages on the charge that a truck owned by his firm had maimed her small son for life.

This ironic episode is based on an actual case in the Los Angeles Courts. A man had sued a certain famous screen star for heavy damages, claiming he had been seriously injured by the star's automobile. The screen actor hired a motion picture cameraman, who perched in trees and other vantage points near the plaintiff's home and took motion pictures of the man frolicking about his back yard, with subsequent courtroom developments rather closely following those in the film.

"Born to Be Bad" from the pen of Ralph Graves, is the story of an unscrupulous "customer's girl" in the cloak and suit trade, deterred by no moral qualms from entering into fraud, conspiracy, blackmail or minor deceptions and trickeries.

One Night, "Broadway Bill," "Lady for a Day" and "The Whole Town's Talking."

## TO-DAY ONLY

## ORIENTAL TOURING PARTIES

Shanghai, July 23. One of the four Oriental tour parties which arrived in Shanghai yesterday is that headed by Miss Jean Lane of Seattle, Washington, veteran tour conductor who has escorted groups to Europe, Alaska, and around the world since she was a college girl.

Although this is her tenth or twelfth (she cannot quite remember which) trip to the Far East, it is her first trip in the role of a tour director. Her party, which she points out is not just a summer sightseeing group, numbers ten American school teachers, social workers, and club women who have made the trip to "look into things as well as shop."

The party includes Mrs. Irene Lansing, Miss Martha Hague, Mrs. Maude Chamberlain, Miss Jewel Tozier, Miss Myrtle Chamberlain, Miss Bernice Smith, and Miss Isabel Anderson, Seattle, Wash.; Miss Marian Dalmazzo of Los Angeles, California; and Mrs. W. H. Lott, Portland, Oregon, clubwoman and regent of the Yambill Chapter, D. A. R.

The party, registered at the Cathay Hotel, will visit Soochow to-day, proceed on to Nanking and Peiping, and return here before continuing to Japan and home. Because she loved to travel, Miss Lane has conducted tour parties since her school days in Boston. She now is a high librarian in Seattle during eight or nine months of the year but a traveller during the remaining months.

In line with the party's programme of investigating things all members visited the legislature while in the Philippines and two of the members devoted yesterday to a study of business conditions in Shanghai.

## RUMOUR UNTRUE

There is no truth in a suggestion made that the Royal Air Force display is to be abolished.

The display is not an "air circus." Its original name of pageant was changed to avoid any such suggestion. The items represent the culmination of the year's work, and the types of duties which the Air Force would normally carry out on active service.

For example, the spectacular close formation flying by squadrons and wings is exactly the kind of technique bombers would use in flying over enemy country.

## KING OF THE THEATRE

AIR-CONDITIONED THEATRE

## LETTER-WRITING SUICIDES

Two Send In Burial Instructions

Shanghai, July 23. The first letter has seemingly started a bad habit among would-be suicides here for philanthropic organization in the French Concession, the "Dong Jen Fu Yuen Tang," has received two more "letters of instructions." This institution recently received the letter signed by "C.V.Y." in which the writer declared he would by then have committed suicide by drowning himself in the Whangpoo. With that information he presumed on the good graces of the charity organization in asking that men should be sent to recover his body and give his remains decent burial.

Of the two other letters received, the requests made were similar in nature. One was signed by Pei Tien Ven and stated that he had been a businessman in Shanghai for the past 20 years and that he had decided to end his life on account of financial difficulties. He was to be dressed in a long gown of white silk and asked the organization to remove his body for burial in the event of its recovery from the river. The second letter was signed in English by "Choo" who stated he was a student just out of college. After saying his decision to commit suicide was also for financial reasons, the writer asked the organization either to bury his body after it had been recovered, or to insert an advertisement in the newspapers, addressed to "Mr. E," his father, asking him to come and remove his son's body. The writer stated in his letter that he would be dressed at the time of his suicide in a suit of white serge foreign-style clothing with striped shirt and black neck-tie. The organization has notified the Nantao Life-Saving Bureau asking for an attempt to be made to recover the bodies of the two men.

It suicides continue to choose this particular institution as the executors of their last wishes, it would have little else to do.

Ability through long practice to fly almost wing tip to wing tip is essential enable men to fly through bad weather to a distant objective without losing sight of each other.

## PLEA TO SPREAD ENGLISH

Prince On Nation's Shyness

A plea for developing the use of English abroad, was made by the Prince of Wales when he received at St. James's Palace the British Council for Relations with Other Countries.

The Prince is patron of the Council. "Owing to our national shyness and insularity," said the Prince, "this country was the last in setting up a proper organization to spread a knowledge of its language, literature, art, and science."

He urged that overseas students should send abroad distinguished courses at our universities and technical colleges, and that we should send abroad distinguished speakers, actors and musicians.

In more palmy days, said his Royal Highness, we were led owing to our national shyness and insularity, to believe that the foreigner would come to us in any event, and that there was no need to offer him any special inducements, nor to care how much or how little he understood us and our somewhat haphazard way of doing things.

"TOURISTS' MANNERS" "It is true that since the war better travelling facilities abroad and a considerable improvement in the manners and attitude of our own tourists, have done much to our own legend that the British all wear knickerbockers and have prominent teeth," went on the Prince, "but we are still misunderstood in foreign countries."

"While our financial reputation is universally respected, a better knowledge of our commercial methods and institutions cannot fail to overcome the tendency to think we are old-fashioned, from which our peripatetic rivals have not failed to profit."

"Our object is to assist the largest number possible to appreciate fully the glories of our literature, our contributions to the Arts, and Sciences, and our pre-eminent contributions to political practice. This can best be achieved by promoting the study of our language abroad, by encouraging students from overseas to pursue a course of general or technical education at one of our Universities or Technical Colleges, and by sending abroad distinguished speakers, actors, and musicians."

"The outstanding example of what we have lost by our lack of appreciation of the importance of an educational philosophy is Egypt, where, despite the special position we have occupied since 1882 and the fact that British trade with Egypt is of far greater volume than French, the French language still remains the official medium of communication with foreigners."

"I hope that one day your Council may be able to found a British Institute in Cairo, to act as a meeting place and information centre for all those interested in the British cultural tradition."

GRANT FROM TREASURY Lord Tyrrell, chairman of the Council, submitting a report of the activities of the organization in the first seven months of its existence, said that the Council had been established at the instance of the Foreign Office. He had been fortunate in securing as his vice-chairman Sir Arthur Balfour, who actually led the mission to Egypt in person, and had also secured

## FAMOUS PEARL COMPARED

Prince And Duke Confer

The owners of two famous pearls met at the Russian Art Exhibition in London to unravel the mystery surrounding their possessions. The gems are: The Peregrina, belonging to the Duke and Duchess of Abercorn, and La Peregrina, owned by Prince Yousouppoff of Russia.

It was owing to the similarity of the names and appearance of the jewels that the confusion had arisen.

Mr. Alexander Polovtsov, the expert on Russian art, who was present at the discussion, said: "It is evident that the Duke of Abercorn's pearl and Prince Yousouppoff's both came from Spain."

"La Peregrina formed part of the Crown Jewels of Philip IV, of Spain, who gave it to his daughter, Marie Theresa, and it was not heard of again until it was bought by Princess Yousouppoff."

The Duke of Abercorn said that the Peregrina, originally belonged to Philip II, of Spain, who presented it to Mary I, of England. After her death he took it back to Spain. According to the tradition in the Abercorn family, the Peregrina came into the possession of Joseph Bonaparte, from whom it passed to his sister-in-law, Queen Hortense, and then to her son, afterwards Napoleon III.

During his sojourn in England, when he was needing money to advance his claims in France, he sold the pearl to the first Duke of Abercorn, then Marquis of Albcorn, about 1848.

Prince Yousouppoff is the husband of Princess Yousouppoff, who was awarded \$25,000 damages against Metro-Goldwyn-Mayer Pictures Ltd. in 1934 for alleged libel in the film "Rasputin." Prince Yousouppoff declared during the action that he killed Rasputin.

the support of other leaders in the realms of literature, learning and commerce, such as the Poet Laureate, the Warden of New College, Sir Alan Anderson, and Sir Eugene Ramsden.

They had been encouraged in their undertaking by a grant from the Treasury of £8,000, by the active collaboration of five other Government departments besides the Foreign Office, and by generous donations from Viscount Wakefield of Lythe, Sir Herbert Grotian and Mr. William Graham.

The importance of assisting the growing use of the English language in Poland and in the Baltic States was receiving their attention, while in Portugal, aided by the generous response to a local appeal to British firms trading to that country, English departments in the two leading Portuguese universities were in process of formation, to which the council hoped to lend its active support. The same might be said of the British Institutes in Florence, Paris and Buenos Aires.

## AGE OF INDISCRETION

In "Age of Indiscretion" the Metro-Goldwyn-Mayer production opening to-morrow at the Queen's Theatre Paul Lukas has what is probably the most sympathetic role of his career as the idealistic publisher whose deep devotion and loyalty to a faithless wife, played by Helen Vinson, threatens to wreck not only his own life but also that of the secretary who secretly loves him. Lukas, who scored such a personal hit in "Little Women," has proved to be a prime favourite probably because of the fine quality of dignity and restraint that is always so apparent in his screen love-making, and because he personifies to the nth degree the polished, courtly, considerate lover that all women admire.

By her splendid portrayal of the difficult dramatic role of Agnes in "David Copperfield," Madge Evans has definitely established herself as an emotional actress of proven ability and undoubted promise. Now, in "Age of Indiscretion" she has another highly dramatic role as the loyal self-sacrificing secretary who is compelled to stifle her love for a man who considers himself bound by moral obligation to a faithless wife, a role which should enable this beautiful and talented actress to add many new admirers to her ever-increasing fan following.

Home-wreckers were denounced by 6,000 British mothers recently. Dr. P. Downey, Archbishop of Liverpool, did the denouncing. He was addressing the annual rally and coming-of-age celebrations of the Catholic Women's League in Blackpool. Dealing with modern women, he said that the foolish women of the Bible, who lived for pleasure and excitement had their counterpart to-day. "The woman of the Bible who was described as glamorous, full of allurements, and knowing nothing at all, talkative and wandering, not bearing to be quiet, not able to abide quietly at home, but pulling down with her hand that which she also built, could be found in the present day," Dr. Downey added.

Mrs. Charlotte Despard, sister of the late Earl of Ypres, and a pioneer suffragette, who at ninety-one is conducting a speaking tour, made a sharp reply to Dr. Downey's criticism. "The accusation that women are home-wreckers can be dismissed as too ridiculous to need denial," she said. "The fact that women are now able to enter the professions and choose their own careers has helped, and is helping, to build better homes and a better nation."

will be accepted up to 9.30 p.m. on

the night of the sports.

Arrested whilst wearing a stolen

watch, Yim Hung, 19, unemployed,

was brought before Mr. Wynne-

Jones at the Kowloon Magistracy

yesterday, charged with stealing a

wrist watch, pocket wallet, a foun-

tain pen and two pairs of shoes

from Chan Yuet-ting, school teach-

er, of the Kit Fong School, No. 124

Portland Street, and was sentenced

to six weeks' hard labour. Detective

Sergeant Downman stated that

defendant was formerly employed

by complainant. One day he broke

a chair, so he was told to go. De-

fendant stayed at the school for a

night and the next morning when

complainant awoke he found the

articles to be missing. On Wednes-

day last he sent his foks to the

Canton boats and defendant was

arrested.

Appearing on remand before Mr.

W. Schofield, at the Central Ma-

gistracy yesterday, on charges of

smoking opium in a matchbox in

Stonecutters Island on Tuesday

morning, and landing on the

Island without a written permit

from the Officer Commanding H.

M. Forces, Li Sang, a carpenter,

was fined \$10, or, in default, ten

days' hard labour on the first

charge, and discharged on the

second.

Chan Tai-cheuk, aged 35, who

was banished from the Colony for

a period of five years from Febru-

ary this year, was sentenced to

four months' hard labour when he

pleaded guilty to returning before

his period had expired, before Mr.

Macfadyen at the Central Magis-

tracy yesterday.

# AROUND THE COURTS

## DEATH ENQUIRY

An inquest on the death of Kwok  
Tal Kam, a small girl aged 9 years  
who was knocked down by a car  
driven by Mr. J. B. Gardner on  
July 7, was heard before Mr. W.  
Schofield at the Central Magistracy  
yesterday afternoon. The juryman  
were: Messrs. W. J. D. Roberts  
(foreman), P. A. Elms and L. D.  
Fernandes.

Dr. I. Newman, of the the Gov-  
ernment Civil Hospital, the first  
witness called, stated that at 6  
p.m. on July 7, the deceased was  
admitted to the Hospital and died  
at 3.30 p.m. on the following day,  
the cause of death being multiple  
injuries and shock.

Mr. Gardner then said that on  
July 7 he was driving car No. 3374,  
a Ford saloon belonging to Mr. F.  
Bird of Talkco Docks, and had in  
the car together with him two  
ladies, Mrs. Crozier whom he was  
bringing back to town, as she had  
been "stranded" with her husband  
at the Tatum Reservoir since their  
car had broken down, and also  
Miss Keown.

Witness went on to say that as  
he was travelling along Causeway  
Bay Road on his way to town, from  
the direction of Shaukiwan, just  
opposite Bay View Mansions, a  
small girl suddenly dashed across  
the road, into the car, and al-  
though witness applied his brakes  
and swerved, the unfortunate child  
was struck by the right hand head-  
light of the car and fell between  
the wheels in the car's track. She  
was immediately picked up by Miss  
Keown and carried to the side of  
the Road while witness went to  
the French Hospital and returned  
with a Sister and a nurse who had  
the child taken to the French  
Hospital. She was unconscious at  
the time.

## LEFT HAND DRIVE

Concluding, witness stated that  
he had driven this particular car  
on two previous occasions and that  
it had a left hand drive. Miss  
Keown then gave evidence stating  
that at the time of the accident  
she was speaking to the lady in the  
back seat, and did not see how it  
happened. Mr. A. Allison, residing  
at No. 14 Bay View Mansions then  
gave evidence stating that he was  
on his verandah and was on his  
verandah and saw the small child  
dash across the road into the car,  
and at the time of the accident  
there was no other traffic on the  
road. Kwok Lo, father of the child  
then gave evidence of identification  
the after which Kwok Ho, the elder  
sister of the deceased went into the  
box. The case was then adjourned  
to Tuesday July 30 at 2.30 p.m.

## INTRUDER CAUGHT

Returning to her flat at 143, Bel-  
cher's Street, at about 2 a.m. on  
Thursday, Ip Chuk-ye was given  
a fright when she found a man un-  
derneath her bed. She raised the  
alarm, and the intruder attempted  
to escape by running into the kit-  
chen, but he found his escape cut  
off and was arrested by a constable  
who arrived in response to the al-  
arm raised by the complainant and  
"mates on the first floor.

The man, Luk Wah-tung, un-  
employed, was charged before Mr.  
W. Schofield, at the Central Ma-  
gistracy yesterday, with entering  
a dwelling-house for an unlawful  
purpose, and was sentenced to six  
months' hard labour, and two  
years' police supervision. He ad-  
mitted two previous convictions.

Detective-Sergeant K'neear, pro-  
secuting, said that when the com-  
plainant entered the premises, she  
found the mosquito curtain on the  
bed disarranged, and the door of

## WIDOW IN TROUBLE

Charged with the larceny of a  
quantity of clothing, the property  
of Mak Pun Lam, a widow (Lam  
Sap), aged 40 was brought before  
Mr. Q. A. A. Macfadyen at the  
Central Magistracy afternoon.

Sergeant Baldwin prosecuted and  
said that on the evening of July  
23, at about 7 p.m. the defendant  
went to complainant's house at

## UNIVERSITY EXAMINATION RESULTS

The results of the School Certificate Examination (subject to the approval of the Senate) are given below.

(a)—Eligible for admission to the Hong Kong University in all Faculties.

(b)—Eligible for admission to the Hong Kong University in the Medical Faculty.

(c)—Eligible for admission to the Hong Kong University in the Engineering Faculty, and Arts Faculty Groups 2, 4 (a) and 4 (b).

(d)—Eligible for admission to the Hong Kong University in the Arts Faculty Groups 6 and 7.

(e)—Eligible for admission to the Hong Kong University in the Arts Faculty Non-Mathematical Groups.

## HONOUR LIST

30.—Leung Chik Luen (a), Wah Yan College (Dist. English, Algebra, Geometry).  
48.—Tann-Augustine-Sinna (b, c, e), Wah Yan College (Dist. English, French).  
54.—Wong Chiu Hin (a), Wah Yan College (Dist. Algebra, Trigonometry, Biblical Knowledge).  
55.—Wong Chung Ngai (a), Wah Yan College (Dist. English, Algebra, Trigonometry).  
56.—Wong Kam Nok (a), Wah Yan College (Dist. English, Algebra, Geometry, Trigonometry).  
57.—Yee Wai Yum (a), Wah Yan College (Dist. Trigonometry).  
76.—Allays Louis (b, c, e), La Salle College (Dist. French, Chemistry, Arithmetic, Geometry, Trigonometry).  
88.—Gottsche, Walter (b, c, e), La Salle College (Dist. Algebra, Trigonometry).  
110.—Poon, Frank Allum (b, c, e), La Salle College (Dist. Algebra, Trigonometry, Geography, Biblical Knowledge).  
113.—Quon Mah, Henry (c), La Salle College (Dist. English, Algebra, Geometry, Trigonometry).  
119.—Soares, Roland Moreno (b, c, e), La Salle College (Dist. Algebra).  
123.—Tonoff, Anatole (c), La Salle College (Dist. French, Algebra, Trigonometry).  
125.—Ulrich, Peter (b, c, e), La Salle College (Dist. English, French, Algebra, Trigonometry, Geometry, Biblical Knowledge).  
133.—Chan, Siun Chong (a), King's College (Dist. Chemistry, Trigonometry).  
142.—Cheng Tung Choi (a), King's College (Dist. English, Geometry, Trigonometry).  
167.—Ling, Samuel (a), King's College (Dist. English).  
173.—Sun, Edmund (a), King's College (Dist. Algebra, Geometry, Trigonometry).  
190.—Wu Hui Tak (a), King's College (Dist. English, Geometry).  
197.—Chau Tran-Ke, John (b, c, e), St. Joseph's College (Dist. French, Trigonometry).  
199.—Chia Pee Chye, James (b, c, e), St. Joseph's College (Dist. French).  
236.—Velasco, Jesus Fong (b, c, e), St. Joseph's College (Dist. French, Algebra, Biblical Knowledge).  
254.—Chin Park, Edward (b, c, e), Diocesan Boys' School (Dist. English, Geography).  
256.—Fong, John (b, c, e), Diocesan Boys' School (Dist. English, Algebra, Trigonometry, Geography).  
262.—Hulse, Aubrey James (b, c, e), Diocesan Boys' School (Dist. Geography).  
271.—Leung Kiu Wai (a), Diocesan Boys' School (Dist. Algebra, Trigonometry).  
275.—Milenko, Boris George (b, c, e), Diocesan Boys' School (Dist. Russian).  
276.—Mok, Dick (b, c, e), Diocesan Boys' School (Dist. Chemistry, Trigonometry, Geography).  
289.—Wills, David Nye Jr. (b, c, e), Diocesan Boys' School (Dist. English, Trigonometry, Geography).  
293.—Zimmern, Archibald (b, e), Diocesan Boys' School (Dist. English, Algebra).  
297.—Ahmed, Nazir (b, e), Queen's College (Dist. Urdu).  
304.—Chung Pui Sun (a), Queen's College (Dist. Algebra, Trigonometry).  
307.—Fong Chun Kwan (a), Queen's College (Dist. English, Elementary Science).  
321.—Li Hon Wah (a), Queen's College (Dist. Algebra).  
325.—Man Hung Cho (a), Queen's College (Dist. Algebra, Geometry, Geography).  
326.—Mok Kai Wing (a), Queen's College (Dist. Algebra, Geometry).  
327.—Ng Shun Hung (a), Queen's College (Dist. English, Chinese, Elementary Science, Algebra, Trigonometry, Geography).  
329.—Pang Kwok Yee (a), Queen's College (Dist. Algebra).  
344.—Yuen Yuk Luen (a), Queen's College (Dist. Elementary Science, Geography).  
348.—Ip Hung Shiu (a), St. Stephen's College (Dist. Algebra, Geometry, Trigonometry).  
457.—Pryde, Walter Kennedy (b, c, e), Central British School (Dist. English).

## PASS LIST

## WAH YAN COLLEGE

1.—Ah Kow Ng Chung Hin, (Dist. Trigonometry, French).  
16.—Fung Shui Wo (a) (Dist. Algebra, Trigonometry).  
27.—Lee Kwok Leung (c) (Dist. Trigonometry).  
28.—Lee Sai Hung (Dist. Algebra).  
29.—Lee Yo Wing (c) (Dist. Geography).  
32.—Lim How Ping, Paul (Dist. Trigonometry).  
43.—Ng Shui Ming.  
57.—Wong Kiang Tong (b, c, e) (Dist. Algebra, Trigonometry).  
58.—Wong Kwan Shui (Dist. Geometry).  
62.—Wong Yui Hing (Dist. Algebra).  
65.—Yee Shou San, Paul (a).  
74.—Agon, Alfredo O'Farrell (b, c, e).  
75.—Agon, Fermin Manolo (b, c, e).  
81.—Chan, Iok Sang.  
89.—Hui Ning Lum, Eric (Dist. English, Geography).  
94.—Lietao, Jose de Mello.  
96.—Liem Peng Bie.  
97.—Lim Hui Chai (b, c, e) (Dist. Trigonometry, Geography).  
101.—Maer, Richard (b, c, e).  
104.—Ong Ching Hay (Dist. Trigonometry).  
105.—Ong Ching Kiat (c).  
106.—Ong Liu Hong (b, c, e) (Dist. Algebra, Geometry).  
107.—Ozorio, Albert.  
116.—Rozario, George Maria (Dist. Geometry, Biblical Knowledge).  
120.—Tan Chin Tong (b, c, e).  
125.—Tsang, Joseph Stephen.  
KING'S COLLEGE  
132.—Au Tin Woon (b).  
138.—Chan Kan (a).  
141.—Cheng Fook Yui (a).  
143.—Cheung King Ho (a), Algebra, Geometry.  
148.—Chu Ka Ying (a), Algebra.  
151.—Fung Kim Fay, Geography.  
154.—Hou Kwai Ming.  
155.—Hui Man Chu (a), Trigonometry.  
156.—Ip Po Man (a).  
157.—Ip Tai Hung (b, d, e), Arithmetic, Algebra, Geometry.  
158.—Ko Yau Kong, Algebra.  
159.—Lam Sau Nam (a), Algebra.  
160.—Lau Po Hei (a).  
161.—Lee Shau Chung (a).  
162.—Lee Sui Luen (a).  
163.—Leong Hoi Leong.  
164.—Leung Mo Fuh (a), Trigonometry.  
166.—Ling Hsi Siu (a).  
169.—Lo Hung Pui (a), Geometry.  
170.—Lo Ping Sun, Algebra, Geometry, Trigonometry.  
176.—Pham Gia, Nghiem (b, c, e).  
177.—Pik Tjong Ging (b, c, e).  
182.—Tseung Yung Mo (c).  
183.—Ung Chalk Siong (a), Geometry.  
185.—Wong Kai Tok (a).  
186.—Wong Sai Cheong.  
187.—Wong Shiu Kon, Arithmetic.  
189.—Wong Yuen Nam (a), Chemistry, Geometry.  
191.—Yip King Lun (a), Trigonometry.  
ST. JOSEPH'S COLLEGE  
192.—Ahwal, Joseph Carlton (b, c, e), Trigonometry.

## CHEAPER TRAIN TRAVEL

## Fifty Cents To Canton!

As the low rates and charges made by steamers plying to and from Canton had reduced the revenue of the Kowloon Canton Railway it was deemed expedient, after consultation between the Canton Authorities and the management of the Kowloon Canton Railway, to bring into effect by August 1, cheaper fares for train travel between Canton and Kowloon by the introduction of the "Cheap Fare Express". This was the information given to a representative of the "Daily Press" yesterday by Capt. Walker, Manager of the Kowloon Canton Railway.

Two additional trains will be put into service and the "Cheap Fare Express" will leave Kowloon everyday at 7.30 a.m. and arrive at Canton at about 11 a.m. while the Kowloon bound train will depart from Canton at 3.30 p.m. and arrive in Kowloon at 7 p.m. The whole trip will take about 3½ hours and the charges will be 50 cents for the trip to Canton and 70 cents (Canton Currency) for the trip from Canton.

These two trains will all be 3rd class coaching stocks and the tickets will be on sale at Kowloon Station and Taisatau only as it would be thus easier to control the sale of the tickets. The trains will stop at three places en route for taking on water and Shumchun is one of those.

Should these expresses meet with sufficient demand special trains will be run to augment the service.

This new venture is in the nature of an experiment.

## CAPT. HORSFORD

## Retiring From The P.W.D.

The friends and colleagues of Capt. J. Horsford of the Public Works Department gathered at the offices of the P.W.D. yesterday to present him with a token of their esteem and regard on his retirement on pension.

Mr. W. J. Anderson, Superintendent of Accounts and Stores, in making the presentation, said: "Although you will continue to be an officer of this Department for some months to come, your active participation in our labours will cease from to-day, and for this reason we, your colleagues and friends, have assembled this morning to mark the occasion worthy of the esteem in which you are held."

"You have devoted practically the whole of your life to the service of the Crown in various parts of the Empire. You enlisted in His Majesty's Forces in 1892. You served through the South African War, winning the Queen's Medal with four clasps and the King's Medal with two clasps, and mentioned in Despatches. You were wounded at Colenso and Spion Kop. In the Great War you served in several theatres and were present as an officer of the Royal Dublin Fusiliers at the first landing at Gallipoli. I have no doubt if you wished to speak you could give us a vivid account of that famous day which was one of the most eventful in the history of the War. You were one of the few officers of your battalion who lived through that dreadful morning and the only survivor of the landing party in your boat. For your services in the Great War you were mentioned in Despatches and received the 1914/15 Star, and the General Service and Victory Medals. You retired at the end of the War with the rank of Staff Captain."

## CAPT. HORSFORD REPLIES

"In 1926 you joined the Service of this Government and have since remained in the Accounts and Stores Office of the Public Works Department. You have now reached the age for retirement and this Department is losing a valuable officer who is held in the highest esteem by his colleagues."

"We hope that you will enjoy good health and happiness during the years of your retirement, and I have much pleasure in presenting this token of esteem which has been subscribed by your friends and colleagues."

Mr. Anderson then presented Captain Horsford with a valuable Aneroid Barometer, fitted with a silver plate suitably engraved. Captain Horsford in replying thanked his friends for the gift, which he would always treasure in his retirement as a reminder of the happy years which he had spent in Hong Kong.

Captain Horsford leaves for England to-day by the s.s. "Rawalpindi."

## CAMPAIGN AGAINST "MOSQUITO" PAPERS

## Confiscation Ordered By Court

Shanghai, July 23.

Unregistered "mosquito" news papers, against which a campaign recently was started by the S. M. Police, were dealt a severe blow yesterday when the Second Branch Kiangsu High Court, on the application of the Police, ordered the confiscation of scores of copies of them which had been seized from street vendors because they were produced in defiance of the provisions of the Press Law requiring them to be registered with the Government offices.

There are known to be more than 40 such papers in the Settlement. Most of them are daily, but some are semi-weekly. Most of those confiscated yesterday had been seized in the Louza and Chengtu Road districts. Others came from Sinia and other districts. They were under such titles as "Iron News," "Robin Hood," "Radio Daily News," "The Dramatic World," "The Great Crystal," "The Social News," "World News," "Sweat and Blood," etc. Some published the names and addresses of their publishers, but most did not.

In order to ensure circulation, alarmist rumours of the most fantastic nature were disseminated by these papers. Many were known to engage in downright blackmail of prominent persons. It was understood that the Chinese authorities had furnished a full list of these unregistered publications.

## The Daily Press

HONG KONG, JULY 27, 1935.

## THE FORTY HOUR WEEK

This year's International Labour Conference has been one of the most noteworthy in the whole history of the Geneva Labour Organisation.

In the first place, it was attended for the first time by representatives of the United States and of Soviet Russia, both of which countries have become members of the International Labour Organisation during the past year. The accession of two more Great Powers has added very considerably to the prestige and importance of the Organisation. The adherence of America is of peculiar significance, for she has always been suspicious of the League and has consistently refused to become a member. Yet, so great have been the services of the International Labour Organisation to the cause of industrial and social progress that she could not afford to remain outside the Labour Organisation.

The principal reason, however, why the 1935 Conference will be remembered is on account of the adoption of a draft Convention limiting hours of work to forty a week. This is a question which has occupied the Conference before. It was discussed last year, and the Italian delegation strongly urged the adoption of a convention at that time. But there was not then sufficient support to get a convention through.

This year both the Italian and American employers' representatives supported by the entire workers' group and a number of governments, supported the adoption of a convention, and this was carried through, although the great majority of the employers' group opposed it and tried to prevent its adoption.

The decision which has been taken is of the very greatest importance. With the progress of invention, machinery is capable of doing more and more work, which was formerly done by hand, and labour has a right to claim a share in the advantages which are the result of this development. The general adoption of a forty hours week will have this result. Instead of the man being thrown out of work by the progress of the machine, work will be shared out more widely, and greater leisure for all will be the result, instead of an increase of unemployment.

It is obvious that individual countries will be hindered from introducing the forty hour week by the fear of handicapping themselves in the face of foreign competition. Thus the surest and best way of achieving this most desirable reform is through the medium of an international convention. Therefore it will be seen that the Conference's decision is a landmark in the history of social progress.

BELGIAN POLICY  
OUTLINEDWestern European  
Air Pact

(Special to "Hong Kong Daily Press")  
(By Telegraph, Copyright, Telegraphic Messages, Ordinance, 1891. Received, July 26, 3.30 p.m.)

Brussels, July 26.

Speaking at a meeting of the Senate Committee on foreign affairs Mr. Van Zeeland, the Belgian Premier, and Foreign Minister, outlined the Government's policy regarding the relations with Soviet Russia and the attitude towards the proposed Western European air pact.

M. van Zeeland hoped that the differences of opinion with England respecting the restrictions of air bombardments will be removed by diplomatic negotiation. The Belgian standpoint, said the Premier, was that in their own case air bombardments should be entirely forbidden, seeing that Belgium's geographical position and its small territorial extent made it attacks exceedingly dangerous for the civil population.

M. Van Zeeland said that recognition of Soviet Russia would be followed for economic reasons.

## SIR WILLIAM PEEL

A message received from our London correspondent (through the air mail) is to the effect that Sir William Peel underwent an operation for appendicitis early this month and later entered a nursing home at Bexhill.

## TRADE MISSION

## To Visit Siam

(Special to the "Hong Kong Daily Press" (Copyright))

Nanking, July 19.

While it is generally known that China and Siam have enjoyed friendly relations for a long time past, two reasons may be ascribed for the sudden change in Siam's policy towards China, firstly the rise of a group of younger men in the Siamese Government who are eager to establish a narrow nationalist policy; and secondly, the minimising of Siam's respect and regard for China after the fiasco she encountered over the Manchurian "incident".

The situation is being aggravated as the Chinese boycott of Siamese rice is affecting the economic foundations of the Siamese people. Recently there were two Siamese investigation missions which visited Nanking to ascertain the reaction in this country towards the allegations of ill-treatment of Chinese in Siam.

## INVESTIGATION TOUR

With every desire on the part of China to be conciliatory and to seek a mutually satisfactory settlement of the present origins of discontent, a semi-official trade inquiry group will be organized by Government and business organizations to make an investigation tour to Siam in an effort to understand the situation better in that country. The group will consist of 11 members including two representatives each from the Ministries of Finance, Industry and Foreign Affairs while two members of the Overseas Affairs Commission will serve as secretaries. The three remaining members will be chosen from among commercial leaders in Shanghai. The party will gather in Shanghai during the middle of next month, preparatory to sailing for Siam.

China United Press (by mail).

Typhoon in about 137 degrees Long. E. and 19 degrees Lat. N. moving N.W.

Typhoon in about 129 degrees Long. E. and 17 degrees Lat. N. direction unknown.

THEME FOR A  
POEMArt Treasures Of  
China

London, July 26.

Not since the days of Sir Francis Drake's Golden Hind has any ship come home to England with a richer cargo than that brought safely to berth at Portsmouth by H.M.S. Suffolk, says the "Morning Post."

It has become an excellent custom to devote Burlington House in the winter time to display of the art of any single nation. London has thus enjoyed the masterpieces of Italy, France, Flanders, Holland and Persia, and now by the great courtesy and kindness of the Chinese Government it has been enabled to see some of the chief art treasures of China.

The Suffolk's cargo might serve as a theme for a poem on the mutability of things.

## ALL NIGHT GUARD

For the first time in many years, the staff arriving at Burlington House this morning found the 18-ft. high wrought iron gates locked. Within the courtyard armed watchmen all night long patrolled the pantelions containing the Chinese treasures.

Shortly after nine o'clock the gates were opened and one pan-technician was driven to the side entrance. The Burlington House gates were unlocked and the work of transferring the cases to the vaults commenced with extreme care for fear of damaging the precious contents.

Mr. Chai Fai Ting, Chinese commissioner for the exhibition, superintended the work.

## CAPTAIN PROMOTED

Captain Errol Manners, commander of H.M.S. Suffolk, who has carried to England the greatest shipload of rare treasures ever sent out for exhibition from China, has been promoted Rear-Admiral and retires co-incidentally with his return to England.

The Suffolk's cargo from Cathay appeals to the imagination of the London press, much to the advantage of the publicity side of the coming Chinese art exhibition.

The "Times" remarks that there is small doubt that the beauty of the exhibits will justify more than all the excitement their arrival has caused.

## OPPORTUNE MOMENT

The exhibition comes at an opportune moment since gradually, thanks to Hobson, Laurence Binyon and other students, the general public has recently been much educated with regard to the greatness of Chinese art.

The Chinese artist loves and reverences the world, the "Times" goes on, and does not, like some of the younger Occidentals, hate and fear it, and wreak upon it his need for self-assertion against something greater than himself. It would be amusing if Western art catches another attack of Chinol-erie in the form it most needs.

These ninety-three boxes may let loose some strange and fateful powers.

Reuter.

LABOUR STRIKE IN  
HUNGARY

(Special to the "Hong Kong Daily Press")

(By Telegraph, Copyright, Telegraphic Messages, Ordinance, 1891. Received, July 26, 3.30 p.m.)

Budapest, July 26.

Seven thousand workers belonging to the building trades declared a strike demanding eight hours a day work and a forty per cent. increase in wages. During the streets the police made twelve arrests. The Minister for Trade had begun conciliation negotiations.

HANCHWAN DISTRICT  
SUFFERS MOST

Hankow, July 26.

A member of the Hupeh Kuomintang, at present touring the stricken areas, reports that Hanchuan is probably the worst sufferer. Practically the entire district is flooded. Only 70,000 people out of a total of 200,000 escaped being affected.

The Peiping-Hankow Railway resumes normal schedules to-day and also most of the bus services in Eastern Hupeh.

Reuter.

DAVIS CUP CHALLENGE  
ROUNDBritain Expected To Retain  
Trophy

London, July 26.

With tennis enthusiasts all excited over the American challenge to Britain, holders of the Davis Cup, the United States have made a last minute change as Wilmer Allison is after all playing in the singles. There have been doubts whether his form was good enough.

The following is the draw:—

## SATURDAY

H. W. Austin (Britain) v. Allison Fred Perry (Britain) v. Donald Budge.

## MONDAY

Hughes and Tuckey (Britain) v. Allison and Van Ryn.

## TUESDAY

Austin (Britain) v. Budge.

Perry (Britain) v. Allison.

Critics agree that Britain is most likely to retain the Cup. Perry is expected to win both singles and Austin at least one. It is almost certain that the doubles will go to Allison and Van Ryn who are the best pair in the world.

The matches will be played on the grass court at Wimbledon.

Reuter.

DEATH PENALTY FOR  
HIGH TREASON

(Special to the "Hong Kong Daily Press" (Copyright))

Berlin, July 25.

The first instance to use and execute the powers granted on April 24 last year to the peoples' court, which is constituted to try the most glaring cases of high treason, occurred on Thursday when the 41 year old Rudolf Claus of Brunswick who with a long record of crime with communist subversion to his account, was condemned to death and the loss of all civil rights.

Claus was sentenced to penal servitude for life for participation in a communist insurrection in 1921, but was pardoned. Among other crimes he was again sentenced to 8 years penal servitude in 1924 for robbery with violence. All efforts to change Claus' mode

SOVIET INTERESTED  
IN GRAIN

(Special to the "Hong Kong Daily Press" (Copyright))

Cairo, July 25.

The Italian purchases of grain from the Balkan countries are now receiving the attention of the Soviet Press which emphasises the difficulties which are likely to arise in connection with the latest Roumanian customs regulations.

Well informed quarters here attribute the papers' interest in this question to the intention of the Soviet Union to enter into the market herself as a supplier of grain to Italy.

Transocean Kuo Min

of life have proved entirely fruitless.

## LOCAL AND GENERAL

A tea dance will be held at Repulse Bay Hotel on Sunday, July 28, at 4.30 p.m. There will be a half-hourly bus service on Sunday afternoon.

Ma Tai, sailor of Sheung Wan in village, Tai-po, in a report to the police, states that on Wednesday night villagers informed him that they heard cries of "Save Life!" from outside Hau Wan in village. On rushing out they saw a man being washed down the stream. The body, which was not recovered, is believed to be that of Ma Sze, brother of Ma Tai.

Gordon Beer, the young son of the popular Craigengower bowler, had in unfortunate accident on Thursday which resulted in his removal to the French Hospital. He was climbing on a chair in his home when he slipped and fell heavily on his right arm, breaking it seriously above the elbow.

Miss P. Landau, of 20 Hankow Road, Kowloon, has reported to the Police to the effect that about 10 a.m. on Wednesday her dog, a bull terrier, bit a five-year-old girl named Yolores Ann Landau, at the above address. The girl was taken to the Kowloon Hospital for treatment, and the dog was removed to Matalook where it is being kept under observation.

Although by no means recovered from his indisposition, His Honour the Chief Justice, Sir Atholl Macgregor, accompanied by Lady Macgregor, sailed by the R.M.S. Empress of Asia yesterday for Shanghai. Sir Atholl will sit with Chief Justice Mosso, and another judge in His Majesty's Supreme Court in Shanghai on an appeal case. When the hearing of the appeal is concluded it is understood that Sir Atholl will continue to Japan, where he will remain for about two weeks before returning to the Colony by the R.M.S. Empress of Japan on August 24, arriving in Hong Kong on August 30.

The white dog which bit a man, Chan Sul Wan, of 2 Wong Tak Street, Shaikwan, at Big Wave Bay earlier in the week, has been seized and sent to Kennedy Town for observation. The dog is owned by Mr. E. J. R. Mitchell, of 9 Shek O Road.

Mr. E. Bacchi, of 4 Village Road, Happy Valley, has reported to the police that while he was driving car 1308 to Leighton Hill Road on Thursday night, he knocked down a woman, Fung Yee, who received head injuries and was removed to hospital.

Mr. C. C. Fox, Master-at-Arms, aboard the C.P.S. Empress of Asia, has notified the police that while the liner was berthed at the Kowloon Wharf on July 13, some person stole from a first-class cabin a gold watch valued at \$50, the property of Mr. R. B. Kendler, of Bay View Hotel, Manila.

The King has signified his approval that recipients of the silver jubilee medal may have their names engraved at their own expense on the rim of the medal if they so desire.

Two cases of enteric fever were reported for the 24 hours ended on July 25.

The Chinese Chamber of Commerce in Singapore has remitted the sum of \$20,000 to the Shanghai Overseas Chinese Affairs Association for the relief of the Yellow River flood sufferers.

A new long-distance telephone line, which will link the main cities in Szechuen and Shensi provinces is now being planned by the Ministry of Communications. The line will run from Sian to Chuanpei in Szechuen. The Ministry of Communications has instructed the two provinces to raise \$2,000,000 each the balance to be furnished by the Ministry.

A regular air service between Sian in Shensi to Chengtu in Szechuen is expected to be inaugurated some time next month by the Eurasia Aviation Corporation in conjunction with the Ministry of Communications. The new line will be formally established as soon as the corporation's new planes arrive.

The decree nisi, pronounced in divorce proceedings in the case of H. McDermott v. D. S. McDermott on January 16, was made absolute in H.M. Supreme Court on Tuesday morning by Judge A. G. Mosso. Mr. E. L. Hartopp represented the petitioner.

Solutions to the sing-song girl problem in Nanking, are being planned by the Ministry of the Interior. It is stated that owing to the large number of sing-song girls there, special areas will be mapped out for them and that they will all be made to wear uniforms.

Owing to the flood in Hupeh and Hunan, the air service on the Chengchow-Canton section of the Peiping-Canton line has been temporarily suspended but the service between Peiping and Chengchow functions as usual.

## NEWS SUMMARY

A case of larceny of clothing property of Mak Pun Lam, was heard before Mr. J. A. A. Macrae yesterday. The defendant was Lam Sap, a widow aged 40. Page 6.

A formal inquest on the death of a nine year old girl, Kwok Tai Kam who was knocked down by a motor car driven by Mr. J. B. Gardiner on July 7, was held before Mr. W. Schofield at the Central Magistracy yesterday. For particulars, Page 6.

Ip Chuk Yee, married woman, residing on the second floor of No. 143 Belchers Street, was given a night about 2 a.m. on Thursday when she returned to her flat after gambling on the first floor, and found a man underneath the bed. Page 6.

The friends and colleagues of Capt. J. Hordford of the Public Works Department gathered at the offices of the P.W.D. yesterday to present him with a token of their esteem, and regard on his retirement on pension. Page 7.

Mr. E. W. Hamilton was re-elected President of the Hong Kong Hockey Association at the second annual meeting of this body held at the St. Andrew's Church Hall yesterday evening. A very satisfactory report for the year's working was presented, and when put to the meeting it was carried unanimously. Page 10.

"Cheap Fare Express" is the new name given to new low fare trains running between Hong Kong and Canton. This new venture was necessitated by the cheap fares charged by the Canton steamers. Page 7.

After a lifetime at sea, a great part of which has been spent in Far Eastern waters, Captain Carl Brandt of the Norddeutscher Lloyd Line's s.s. Saale, which arrived here on Thursday from Manila, is making his last trip, as he is retiring when the vessel arrives back in Germany. Page 11.

CANTON NEWS  
IN BRIEF

(From Our Special Correspondent)

Canton, July 26.

Charged with the mission of bringing back Mr. Hsiao Fu Chen, Mr. Huang Lun Shu, Provincial Commissioner of Education, arrived at Bangkok to-day. As a mark of respect to Mr. Hsiao, Mr. Huang will accompany him back to Canton, as his presence here is needed in connection with the liberation of Kuomintang and important national problems.

While in Bangkok, Mr. Hsiao had drawn the attention of the Bangkok authorities to the injustice of forbidding Chinese students there from studying their native language. Mr. Hsiao's plea made a deep impression on the Siamese Government which has promised to remove the restriction. Mr. Huang, being a member of the Kuangtung Government, will officially take up the matter will the Siamese Government.

## Dr. Wang Chung Hui

Reports from Geneva stated that Dr. Wang Chung Hui, D. C. L., Judge of the Permanent Court of International Justice, will shortly return to China to take up a very high post in the Nanking Government. He was last heard from in Geneva in the company of Mr. Hu Han Min. Both Chinese leaders will shortly proceed to London, after which Dr. Wang, it is said, will return to China.

Dr. Wang is popular on all sides. He made a good impression on Japanese officials when he passed through Tokyo six months ago. He is acceptable to Canton, being a Cantonese with some southern viewpoint. His appointment as judge of the World Court was due entirely to his merits as a legal scholar. Finally General Chiang Kai Shek has a high opinion of Dr. Wang.

## 6th Plenary Session

According to advice received from Nanking to-day, the Sixth Plenary Session of the Kuomintang will be held in late September. The Session will decide the agenda of the Fifth National Congress, which will be convened in the capital on November 12.

Canton leaders are paying some attention to the coming Plenary Session. Most likely they will introduce some important resolutions on the general political situation.

## FEELING RUNS HIGH IN ITALIAN CAPITAL

### Monster Demonstration On Abyssinia Question

(Special to the "Hong Kong Daily Press" (Copyright).)  
By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894.  
Received July 26, 7:30 p.m.)

Rome, July 26.  
Manifestations of the rising anti-Abyssinian feeling which has been going on throughout the country during the course of the last few days were eliminated by a series of monster meetings held in all quarters of Rome on Thursday evening. Colonisation tasks and qualifications of Fascist Italy were stressed in numerous speeches and the severest of attacks directed against Abyssinia and "those behind it." Whistling catcalls with which the crowd gave vent to their feelings were alternated with enthusiastic acclamations for Il Duce and his policy.

Following the manifestations, the demonstrators in dense masses, preceded by innumerable placards and posters bearing inscriptions attacking Abyssinia and condemning the League of Nations as well as the British and Japanese armaments and ammunition dealers, proceeded through the capital's main thoroughfare and stopped before the French Embassy, in the course of which the French Ambassador, M. Chambrun, answered the cheers of the crowds for France with "Long Live Italy."

—Transocean Kuo Min.

Rome, July 26.  
An official denial issued on Thursday evening that the Italian Government had decided to withdraw from the League of Nations was much emphasised by a communication made subsequently to a representative of the International Press.

In the latter case, however, an important distinction was made inasmuch as it was stressed that the step in question was not contemplated "at this juncture," but that on this matter Italy's future course of action would be decided by the attitude adopted by the League of Nations.

Nevertheless, it was stated by a high authority, Italy did not believe that a session of the League of Nations Council convened at this moment would facilitate the deliberations now going on between Rome, London and Paris, but rather would have a contrary effect.

—Transocean Kuo Min.

#### VOLUNTARY HELPERS

Addis Ababa, July 26.  
Crowds rushed to enroll for service as "voluntary helpers and nurses" in the event of an outbreak of war when on Thursday, with Swedish support, an organisation similar to the Red Cross was formed here.

—Transocean Kuo Min.

#### FRESH RAY OF HOPE

Paris, July 26.  
An Italian note conveying the assurance that the Rome Government were desiring the resumption of work by the Italo-Abyssinian commission for conciliation awakened a fresh ray of hope in political here that the conflict may again be settled peacefully.

The "Petit Parisien" stresses with noticeable satisfaction that the note shows that Italy has no intention of breaking with Geneva and states that French political circles are watching with some optimism the conversations now going on in Rome between the Italian under-Secretary of State and the French and British Ambassadors.

—Transocean Kuo Min.

#### NOISY PARADE

Rome, July 26.  
Over 100,000 Roman citizens gathered at 10 o'clock last night in the precincts of the Foreign Office to stage a parade of devotion and solidarity to Il Duce, but all the venom engendered by the long and bitter press campaign turned upon the respective Lions of Britain and Judea.

Bearing banners, one of which pictured the Fascist star smothering the British and Japanese flags and another showing the Ethiopian Emperor hanging by his trousers to the Fascist shear symbol, the parade noisily traversed the streets of Rome.

#### YOUTH SLOGANS

Fascist Youth organisations, interspersed revolutionary songs with shouts of "Down with England, Ethiopia and Japan." The League of Nations also received invectives, but the gigantic posters and streamers caricaturing the above countries and bearing slogans "Rome Will Save Europe: We Shall Win" were the most conspicuous.

Some of the posters depicted Europeans and Japanese fraternising with Africans, while others alluded to the slave traffic. Occasionally cries of "Maltai Maltai" rose above the din.

General Starace, Secretary of the Fascist Party, harangued the crowds from a balcony, demanding expansion of Italy's overseas territories.

## NEW MINISTER

M. Marcel Regnier, the new Finance Minister in France.

#### "VERY GOOD CASE"

Rome, July 25.  
Whilst official circles are resolutely silent, the general impression in well-informed circles is that Signor Mussolini will send representatives to the League Council meeting which is to discuss the Italo-Abyssinia dispute. He considers he has a very good case to submit to the Council.

—Reuter.

#### ARMS EMBARGO

Brussels, July 25.  
The Government has decided to place a ban on imports of arms to Abyssinia and to refuse licences for exports to Ethiopia.

—Reuter.

#### ABYSSINIA'S NOTE

Geneva, July 25.  
A note from the Abyssinian Government reached the League of Nations Secretariat on Thursday demanding that on the grounds of urgency, the League of Nations Council be convened immediately.

Circles here usually well informed, state that the General Secretary of the League, M. Avenol, in conversation with the Abyssinian Minister while in Paris refused to accede to this demand, insisting instead that the Council be assembled in conformity with the arrangements made in its decision of May 25.

—Transocean Kuo Min.

#### DATE FIXED

Paris, July 25.  
The French foreign office announces that the League of Nations Council Meeting to deal with the Italo-Abyssinian dispute is convened for July 31. M. Laval will leave for Geneva on Monday evening or Tuesday morning.

—Transocean Kuo Min.

#### NO ARMS EXPORT

London, July 25.  
All rumours that England has lifted the embargo on the supplies of arms and ammunition to Abyssinia were dispersed by the Foreign Secretary's reply to a question from the leader of the Opposition Mr. Lansbury in the House of Commons on Thursday afternoon.

Sir Samuel Hoare stated: The transit of arms to Abyssinia through British territory or protectorate will be permitted under article nine of the treaty of 1890.

The French government puts the same interpretation on the obligations under this treaty. The granting of licenses for the export of ammunition from England is another matter. Since the government is doing all she can towards the solution of the unfortunate dispute and does not desire to prejudice the situation in any way, no export licenses for arms will be issued.

—Transocean Kuo Min.

#### RUMOURED PROPOSAL

Paris, July 25.  
It now appears certain that M. Laval, despite being overburdened with work, will be present on Monday at Geneva where, according to informed circles here, it is hoped to put forward the proposition of some form of Italian protectorate over Abyssinia based on a treaty between France and Italy undertaking to respect Abyssinia's integrity.

This proposal, it is stated, also provides for the establishment of a "British zone" of influence round Tana Lake, Italy in the exchange of notes with Great Britain in December 1925 having recognised the exclusive British right to deal with the waters of this lake.

—Transocean Kuo Min.

#### NO EXPORT LICENCES

London, July 25.  
The Foreign Secretary, Sir Samuel Hoare, in making the promised statement at question time in the House of Commons to-day, on the supply of arms to Italy and Abyssinia said that the "transit of arms destined for the Government of Ethiopia across British territory or protectorate will be permitted."

## THE BRITISH COLONIAL MARKET

### Mr. MacDonald Strives For Expansion

London, July 25.

Mr. Malcolm MacDonald, Secretary of State for the Colonies, will strive for the expansion of the British Colonial market, seeking to increase the exports of the overseas possessions to England particularly, he announced in the House of Commons yesterday.

The general economic health of the Colonial Empire was good, he said, and the finances of the Colonies were generally sound. Hong Kong he mentioned as one of the few areas where conditions had worsened during the past year. But there were many examples of improved trade.

Malaya and Ceylon were amongst the more satisfactorily affected Colonies, the first having increased her export trade from £47,000,000 to £66,000,000 during the year and the second having advanced its overseas sales by about 33.1/3 per cent.

The Empire's colonies, among their other crops, produced every conceivable kind of problem, declared Mr. MacDonald, son of the former British Prime Minister and new Minister for the Colonies, when he spoke in the House of Commons to-day introducing the Colonial Estimates.

This year, he said, Kenya, Malta and Federated Malay States had joined the Colonies having a balanced budget, while only Gilbert and Ellice Islands had dropped out of that group. Northern Rhodesia and Nigeria, he said, had greatly reduced their deficits and hoped to have a surplus for the current year.

#### BIG INCREASE

An enormous increase in Ceylon's exports was recorded, he said, the total having jumped from £13,500,000 to £18,000,000 largely as a result of the better prices for tea and rubber, while Malaya had experienced a similar advance, exports increasing in value from £47,000,000 to £66,000,000 for the same reason.

Hong Kong's position, said the Colonial Minister, was slightly worse. But improvements had been reported from Uganda, Northern Rhodesia and Nyasaland. The unfavourable trade position in Kenya was caused by the climatic conditions, but recovery at an early date was anticipated, he said. The Colonies had all made a great effort to meet the depression by reducing the costs of production. Agriculture research had assisted materially, particularly in the direction of losses due to pests and diseases, while marketing systems had been reorganised.

#### SHORTAGE OF STOCKS

Referring to the tin industry, Mr. MacDonald said that the control scheme had had rather an unfortunate experience, this week, prices having sky-rocketed when a shortage of stocks became apparent in London, but he was advised that this position was purely temporary. The scheme had improved the prospects of the industry. The Malayan representative, he said, had done everything he could to protect the producers' interests.

## SILVER MARKET

(From Our Own Correspondent)

London, July 25.  
London Silver prices to-day were unchanged on "Spot" and 1/16 down on Forward as follows:

July 25, July 26.  
Spot ..... 30-3/16 30-3/16  
Forward ..... 30-5/16 30-1/4

London on New York cross rate at 2 p.m. to-day was 4.9808 compared with 4.9587 at closing yesterday.

In accordance with Article Nine of the Treaty of 1930.

The French Government, I understand, interpret their obligation under this Treaty in the same manner. As to the issue of export licences, His Majesty's Government are doing their best to make possible a peaceful outcome to the present unhappy dispute and would not wish to do anything which might prejudice the situation.

They will, therefore, for the present not issue licences for the export of arms from this country, either to Italy or Abyssinia.

—British Wireless.

which had certainly not been neglected as far as the Colonial Office was concerned.

#### WORK FINISHED

Mr. MacDonald paid a tribute to his predecessor in office, Sir Philip Cunliffe-Lister, saying that every territory had been benefiting economically from his work in the last three and a half years. Nevertheless, he did not think that work was finished.

There were still other means to be adopted for the development of the Colonial resources, particularly in the expansion of their markets in Britain and some countries overseas. He believed they would be able to do something very effective to push the movement still further.

—Reuter.

#### IMPROVED TRADE

London, July 25.  
The new Secretary for the Colonies Mr. Malcolm MacDonald, in submitting the Colonial Office vote in the House of Commons, spoke of the colonies' financial condition and the improvement of their trade, and discussed the effects of regulation schemes for tin, tea and rubber. In general he was able to report further progress in the securing of balanced budgets.

Kenya, Malta and the Federal Malay States, after having deficits in 1933, balanced their budgets last year. A comparison between 1934 and 1933 in a number of representative Colonies showed on the whole an improvement in their trade figures.

#### IMPERIAL PREFERENCE

Efforts been made to expand markets for colonial products in Empire countries, by the wide extension of system of imperial preference. In regard to a great many commodities, we had so arranged our purchases that almost the whole supplies came from the Colonial Empire.

The exports of Ceylon and Malaya had shown a great increase in value as a result of better prices due to schemes of regulating the production of tea, rubber and tin.

#### THE SCHEME DEFENDED

Mr. MacDonald defended the International Tin Restriction Scheme from criticism arising from the recent market scare on the grounds that over a period of great many months it had smoothed out violent price fluctuations.

Success too, had attended the tea and rubber reputation schemes which had restored prices to an economic level for producers.

The enormous depression had made it inevitable that educational development was at a standstill but they were spending more money on medical research. When trade and revenue expanded more money could be spent on improved health, educational, social and political services. The primary object sought by the Government in the development of territories and their resources, the Minister said, was to the benefit of the people themselves, both white settlers and the natives.

—British Wireless.

## THE SUMMER RECESS

London, July 25.

The Prime Minister, Mr. Stanley Baldwin, announced in the House of Commons that the House would adjourn for the summer recess on Friday of next week.

On Thursday there will be a discussion on international affairs and the leader of the Opposition, Mr. George Lansbury, intimated that the Labour Party had decided against tabling the motion.

Mr. Baldwin replied that he was very glad because the position regarding the affairs on the Continent at the moment was critical and he thought a general debate would be better.

—British Wireless.

## FAMOUS BOTANIST'S DEATH

The Hague, July 25.

The death has occurred of Professor Went, the great Dutch botanist and authority on rubber planting.

—Reuter.

SOLE AGENTS:—

DODWELL & CO., LTD.

## CLOSE WATCH ON GUILDER

### Wary Moves By Control

London, July 26.  
The Foreign Exchange markets are deceptively quiet in appearance, due to heavy operations by various control funds.

The Netherlands Bank continues to support the guilder by offering francs. British control is checking the rise in sterling by buying francs, which also are being bought by the American authorities.

Falling this official intervention there is no doubt that sterling and the dollar would be appreciated very sharply in terms of gold currencies.

The guilder remains the storm centre and events in Holland will be watched very closely throughout the city owing to guilders having a connection with the oil, rubber, tin, sugar and pepper trades.

—Reuter.

#### GOLD DRAIN CONTINUES

Amsterdam, July 26.  
The drain on gold from Holland to France and America continued to-day. The franc and dollar are still above export point. The guilder fell further compared with yesterday's close, indicating that the rise in the bank rate is insufficient to prevent speculation.

—Reuter.

## LOWER DUTIES IN CEYLON

### British Goods To Benefit

Colombo, July 26.  
Lower duties on British goods form the main feature of Ceylon's new budget.

The duty on British cotton piece-goods will be reduced from 10 per cent. to 5 per cent, while the duty on foreign goods remains unaltered.

The duty on real artificial silk will be reduced from 20 per cent. to 15 per cent. The rate of 25 per cent. on similar foreign articles remains unchanged.

Umbrellas, sewing machines, paper and agricultural implements are subjected to lower duties.

Iron and steel will be allowed to enter free.

—Reuter.

## FRENCH BUDGET

(Special to the "Hong Kong Daily Press")

By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received, July 26, 7:30 p.m.)

Paris, July 26.  
Whereas the State budget of 1931 and 1932 aggregated 51 milliards francs, that of 1933 was only 42 milliards, stated an official communiqué which the Cabinet meeting had issued on Thursday night.

Following the example set by the Senate, the presidential committee of the Chamber decided on Thursday night that the emolument received by the deputies be reduced by ten per cent.

—Transocean Kuo Min.

## CABINET CRISIS

### Colijn Hands In Resignation

The Hague, July 26.  
The Ministry of Dr. Colijn has resigned.

Following the tension of the past several days, the intimation of the Catholic party that it could not support the Government's monetary policy, the Cabinet met to-day and announced later that it would resign.

However, the Queen is considering the position and may not accept Dr. Colijn's resignation.

Holland's monetary condition is believed to be precarious and may necessitate her departure from the gold standard, some circles believe. To-day, because of the drain of gold from the Netherlands Bank, the bank rate was raised to six per cent.

—Reuter.

#### QUEEN'S COMMISSION

The Hague, July 26.  
The Queen has charged the Catholic leader, Alberse, to form a Cabinet on a broad base if possible and to inform her of his decision in the next few days.

—Reuter.

## OTTO BECOMES UNPOPULAR

### "Freedom" Grants Discouraged

(Special to the "Hong Kong Daily Press")

By Telegraph, Copyright, Telegraphic Messages Ordinance, 1894. Received, July 26, 7:30 p.m.)

Vienna, July 26.  
The growing habit of small communities, especially in the Tyrol in upper Austria, to confer their freedom upon the Archduke Otto of Hapsburg, pretender to the Austrian throne, is beginning to attract unfavourable attention.

The "Landeshaupmann" or governor of the province in upper Austria, Dr. Gleissner issued a decree pointing out that the fashion of making Archduke Otto an honorary citizen of the Austrian communities was incompatible with the constitution and should therefore not be encouraged.

The Diet in the province of Vorarlberg has passed a law condemning the "spate" of honorary citizenships especially those conferred on members of the Hapsburg family.

The newspaper "Tiroler Bauernzeitung," the official organ of the powerful Christian Social and Peasant League of the Tyrol, was even more outspoken in voicing its objections to the restoration of the Hapsburg monarchy. The paper writes: "It is not a matter of importance that the aristocrats, army officers and high officials would enthusiastically acclaim the new emperor. It being more important to know whether the ordinary people who had known just as unfavourable days in former times as now could expect an improvement in their condition under a monarchy, and whether it will be possible to win over the younger generation which has no personal experience of the old monarchy to the idea of a monarchist regime."

—Transocean Kuo Min.

## DOROTHY ROUND

(BY H. W. AUSTIN)

The rise of Miss Dorothy Round to fame and success, if not as meteoric as that of Perry's, has been as steady and as sure.

In 1930, in the columns of "The Evening News," I wrote "On the horizon there has arisen a bright new star—Miss Dorothy Round—who shows every promise of taking a leading place in the already brilliant constellation of British girl players."

Nineteen hundred and thirty is not so very long ago, and that promise was very soon fulfilled, for not only did she take a leading place among British players, but in 1933 she fought a titanic battle with Mrs. Willis Moody in the final at Wimbledon.

And in 1934 she achieved the distinction of being the first English girl to win Wimbledon since the success of Mrs. Godfree in 1926.

## EARLY SUCCESSES

Miss Round first came into prominence in 1929. Successes early in the year brought her into the front, and she went through the usual flood of limelight which heralds the arrival of every new star. Miss Round's private life ceased to be private, its most interesting features were at once published for the edification of the great sports-loving British public.

What did we learn? We learnt, rather surprisingly, that Miss Round was a Sunday School teacher; that she lived at Dudley; that she would not play tennis on Sundays; that she learnt her tennis at home largely through practising against a wall.

In the illustrated papers, we saw many photographs of her, photographs of a typical English sports girl, quiet and modest, with a perfect athletic figure denoting speed and strength.

## ALL THE STROKES

Such photographs were bound to arouse a desire to see Miss Round herself, to see her in action playing the game which had brought her fame. Once having seen her play, it needed no unusual foresight to prophesy for her a great future.

Her movements were graceful and her strokes were as graceful as her movements. They flowed from her racket with that apparent ease which is only seen in players of the highest class. Nor was any stroke missing. Each and every one was there, sound and well-placed, perfectly produced—a service well placed, if not especially forceful, splendidly controlled backhand and forehand drives; and unusual volleying powers for a girl.

Since her victory last year Miss Round seems further to have consolidated her game, and was, if anything, playing even greater lawn tennis at the end of last season than that which brought her victory at Wimbledon. A damaged leg muscle has unaccountably somewhat cramped her style this year, but fortunately it has now recovered.

May she long wear the champion's crown which she won so deservedly last year, and which she has worn with such modesty and grace.

## WHAT SHE ESCAPED

How often have players in the past been acclaimed before their time and been unable to live up to

their overboosted reputations? How often have they been weighed down by their premature rise to fame, worried by the glare of publicity, of all eyes focused upon them, feeling that everyone expects them to do great things before they are fully equipped with experience and strokes to do so, before their game is fully matured?

Miss Round has escaped all this. She has gone steadily on her way, acquiring experience, consolidating her game, until her hour struck; and at Wimbledon last year she won the crown which was the reward of a champion's skill.

In spite of the fact that Miss Round has been playing competitive tennis for over six years, it has so happened that I have only played either with her or against her once—in the final of the mixed doubles at Wimbledon last year, when, as she and her partner piled up the games against my partner and myself, I began to have doubts about that kindness of heart which up till then I had always been certain she had possessed!

## A TENNIS VAGARY

It is curious that two players of the same nationality, even if of different sex, should have met on a tennis court only once in six years, but it is one of those vagaries of fortune which bring you into contact in the first round of a holiday tournament with a member of your local club whom you have been playing every evening of the summer, and which brings you into contact continually with certain opponents, while certain other players scarcely ever cross your path.

It is strange, for instance, that on the three occasions that Frank Shields has played at Wimbledon, I should have played him in the round of the last eight, while it was not until the seventh tournament, in which Von Cramm and I played (in six of which either he or I were the winner) that we actually played against each other.

## CONVINCING!

But the one occasion on which I played against Miss Round would have been enough to have convinced me of her outstanding skill had she not, only a short time before, proved herself, by the win of the singles title, the outstanding woman player in the world. It is interesting that she and Perry, who started their first-class lawn tennis career at much the same time (though perhaps Miss Round had a slight start on Perry), who look so very much alike, should have been crowned champion at Wimbledon on successive days.

Since her victory last year Miss Round seems further to have consolidated her game, and was, if anything, playing even greater lawn tennis at the end of last season than that which brought her victory at Wimbledon. A damaged leg muscle has unaccountably somewhat cramped her style this year, but fortunately it has now recovered.

May she long wear the champion's crown which she won so deservedly last year, and which she has worn with such modesty and grace.

## LAWN BOWLS

## To-day's Matches

A great many very interesting Lawn Bowls Matches are down for decision during the week-end, but unless weather conditions, which are most unfavourable at the time of writing, improve, the lawn bowls league will once again be held up.

The teams and fixtures for to-day are:—

## HOME CRICKET RESULTS

## Double Century By Kilner

London, July 25.  
A score of 238 by Norman Kilner and 101 by Santall, coupled with good bowling by Holles gave Warwickshire an easy victory over Worcester.

The South Africans secured an eight-wicket win over Northumberland, Crisp, who will doubtless share in the attack against England in the Fourth Test on Saturday, came out with an average of nearly seven runs apiece for half a dozen wickets. The following were Reuters' score details:—

Warwickshire beat Worcestershire by an innings and 121 runs at Worcester.

## LATEST RESULTS

London, July 26.  
The following were further results of the cricket matches begun in mid-week:—

Somerset beat Kent at Maidstone by 52 runs. Somerset 167 (Todd 6 for 72) and 268 (Lewis 5 for 57); Kent 266 (Chapman 107, Andrews 6 for 84) and 117 (Andrews 6 for 65).

Yorkshire beat Gloucester at Hull by 197 runs. Yorks 260 (Barber 80) and 294 for 9 declared (Barber 74); Gloucester 203 and 154 (Vertly 6 for 53).

Essex beat Surrey at Clacton by 35 runs. Essex 160 and 220 (Nichols 84); Surrey 261 and 64 (Eastman 5 for 10).—

Reuters.

Worcester: 200 (B. W. Quaife 96 not out) and 198 (Holles 8 for 61).  
Warwick: 518 for 7 dec. Kilner 238, Santall 101).

The South Africans beat Northumberland by 8 wickets at Northumberland.  
Northumberland: 198 (R. J. Crisp 6 for 41) and 222.  
S. Africans: 323 and 101 for 2.

## MITCHELL UNFIT

London, July 25.  
A Mitchell, the Yorkshire batsman, has announced to the English Cricket Selection Committee that he is unfit and will not be available for the Fourth Test Match against the South Africans at Old Trafford on Saturday.  
A. H. Bakewell, the Northants opening batsman, and former international cricketer, has been asked to attend in place of Mitchell.

## LATEST RESULTS

London, July 26.  
The following were further results of the cricket matches begun in mid-week:—

Somerset beat Kent at Maidstone by 52 runs. Somerset 167 (Todd 6 for 72) and 268 (Lewis 5 for 57); Kent 266 (Chapman 107, Andrews 6 for 84) and 117 (Andrews 6 for 65).

Yorkshire beat Gloucester at Hull by 197 runs. Yorks 260 (Barber 80) and 294 for 9 declared (Barber 74); Gloucester 203 and 154 (Vertly 6 for 53).

Essex beat Surrey at Clacton by 35 runs. Essex 160 and 220 (Nichols 84); Surrey 261 and 64 (Eastman 5 for 10).—

## LOCAL HOCKEY

## Association Holds Meeting

Mr. E. W. Hamilton, who presided at the second annual meeting of the Hong Kong Hockey Association held in the Church Hall of the St. Andrew's Church, yesterday, said that he had every satisfaction in stating that the year under review, had been a very successful one. As the annual report and statement of accounts had been in their hands for some time past, he would not give a lengthy speech as there was very little he could add to the report. He would propose however, that the annual report and statement of accounts be taken as read, and on the proposal of Lt. C. C. Garthwaite, seconded by Mr. P. Singh, the report was adopted and carried unanimously when put to the meeting.

The following officials were elected for the ensuing year:—

President: E. W. Hamilton.

Vice-President:—

(Naval): Commodore C. G. Sedgwick

(Military): Major M. H. A. Campbell

(Civilian): A. A. Dand

Hon. Secretary: F. A. Kemp

Hon. Treasurer: A. M. Xavier

An amendment to Rule 10 of the Hong Kong Hockey Association Handbook to read "all cheques shall be signed by the Hon. Secretary and the Hon. Treasurer" was put to the meeting by Mr. M. A. Xavier, and after some discussion it was passed unanimously.

This was seconded by Lt. C. Ravenhill. There was a good attendance, the Navy and Army, sending representatives. There

## U. S. BASEBALL

## Rain Interferes

New York, July 25.  
The majority of the baseball matches in the major leagues to-day were postponed on account of the rain.

No game was played in the American League while the fixture between the Boston Braves and Cincinnati Reds, in the National Championship, was postponed.

The New York Giants have been slowly warding off the challenge which the St. Louis Cardinals have been offering during the past month and when the two teams again clashed to-day the New York outfit won a double header.

Results of to-day's matches follow:—

## NATIONAL LEAGUE

	R.	H.	E.
New York	3	12	2
St. Louis	1	5	1

New York	13	17	0
St. Louis	2	9	3

(J. Collins scored a home run for the Cardinals.)

Brooklyn	2	5	2
Chicago	4	10	1

Philadelphia	8	11	0
Pittsburgh	9	12	3

(Dolph Camilli scored a home run for the Phillies.)

The Boston Braves-Cincinnati Reds match was postponed on account of rain.

Reuters.

were, however, some notable absences amongst the Civilian clubs.

## "QUINNETTE"

A name that is becoming world famous. QUINNETTE PRODUCTS, LTD. is a Factory in Farnham, Surrey, England, of which 90% of the male employees are Ex-Service Men.

It specialises in the Finest Fruit Juices and Crushes made from Fruit grown in the British Empire.

Try them and be convinced as to their purity and concentrated strength. Put up in most attractive Bottles and at a very reasonable cost.

We stock the following:—

- QUINNETTE GRAPE FRUIT CRUSH
- .. LIME JUICE
- .. PASSION FRUIT
- .. LEMON CRUSH
- .. ORANGE CRUSH
- .. STONE LIME
- .. STONE GINGER
- .. HAPPY DAYS
- .. SIDECAR
- .. TIGER'S KISS
- .. GRAPE FRUIT VERMOUTH

## A BAD OFFENDER

Sin Ming (43) unemployed was yesterday afternoon committed to the next Criminal Sessions by Mr. E. I. Wynne-Jones a. Kowloon Magistrate where Sin appeared on a charge of returning from banishment before the expiration of a banishment order dated November 16, 1934, when he was banished for a period of 10 years.

Lance Sergt. T. Mackay had charge of the case for the prosecution.

Lau Wai, a Chinese detective said that on July 18, as a result of information received, he arrested defendant at the junction of Pak-hoi Street and Shanghai Street, and took him to the Yau-mat Police Station.

Replying to an assertion made by the defendant that he (defendant), had been arrested on board the s.s. "Tin Shun," witness denied any knowledge of this.

Defendant insisted that his arrest was fully reported in the "Kung Seung Yat Po," but witness said that he did not know anything about this.

## FOURTEEN CONVICTIONS

The Magistrate ordered that a search be made of the files of this paper, to verify defendant's allegation. Lance Sergeant Mackay acceding to this request.

The prosecuting officer then gave evidence. He said that he was attached to the fingerprint department at Police Headquarters, and produced defendant's record, which showed that he had fourteen previous convictions against him. In November of last year when defendant was deported, he left the Colony under the name of S'n Mar.

Evidence was then taken from Fung Pak Yeung, an interpreter at the deportation office, Central Police Station, and Lau Pang, who said that on July 8, he took defendant from the cells at Central, and escorted him to the s.s. "Kwong Fook Cheong" bound for Kong Moon. The ship left port at 6.30 p.m. with defendant on board.

An interpreter of the Yau-mat Police Station was next called, and in evidence he said that defendant made a statement after being charged at the station to the effect "I was banished. I came to Hong Kong to find my friend."

## DEFENDANT'S STORY

Defendant, in the witness box, said that he was banished on July 8, but returned to Hong Kong on July 14. He did not come ashore, however, and returned to Kong Moon. He paid another visit to the Colony some days later, arriving here on July 18, when he noticed that the s.s. "Tin Shun" was lying alongside the Sai Kong Wharf.

He hired a sampán to board the vessel, where he remained until 5.30 o'clock in the evening. While on board the "Tin Shun" he noticed the steamers "Lee Hong" and "Sui Tai" leaving for Macao, and ten minutes later two Chinese detectives came on board the ship and arrested him.

They took him to No. 156A, Hollywood Road, first floor and ordered him to remain on the premises. Later they brought him a bowl of rice. In a conversation that then took place, the two detectives said that they were not from the Central Police Station but from Yau-mat, and were debating whether they should take him (defendant) to Yau-mat.

At 8.30 that night, having apparently decided on this course, they took him to Yau-mat. Before reaching the station they bought him a pair of shoes, and when they arrived at the station in question he was handed over to the first witness (Lau Wai).

## GLASS OF LEMONADE

Questioned by the Magistrate about the shoes that were bought for him, defendant quite candidly said that they were purchased at his own request as the pair that he had previously worn, had fallen into the harbour.

He knew the names of the men who had escorted him across the harbour, because Lau Wai did not have any money to pay for the shoes, and he (defendant) heard him address the other man as Lau Hol, who then paid for the shoes.

Continuing, defendant said that at Yau-mat he was given a "small glass of lemonade" and some cigarettes, and the next day at 9.30 a.m. he was taken into the charge room.

Pointing out that he had 14 previous convictions against him, ten of which were for deportation offences, the Magistrate said that defendant must understand what deportation "really" means. De-

AFTER FORTY  
YEARSCapt. Brandt To  
Retire

Captain Carl Brandt, master of the S. S. Saale, of the Norddeutscher Lloyd Line, is to retire on the arrival of this vessel in Germany, having spent most of his life at sea. He leaves many friends in the Far East, since he has travelled in this part of the world during the better part of his life. Captain Brandt brought the "Saale" into Hong Kong on Thursday and leaves to-day for Shanghai, this being his last trip Eastwards.

Born in Bremen, Captain Brandt went to sea at the age of 14 and has sailed round the globe for the past 45 years.

He started his career in sailing ships and went four times round the world in them. He has only been involved in a collision once, and this occurred when he was an able seaman on a Canadian windjammer named the Lake Ontario. Proceeding up the English Channel through one of the dense fogs that are so prevalent in that part of the world, the Lake Ontario came into collision with a 10,000 ton steamer, which was not badly holed as a result that she sank in less than 10 minutes with a loss of four lives. All the survivors were picked up by the windjammer and conveyed safely to port.

## MASTER'S TICKET

After several years in sailing ships Captain Brandt left the sea for a short spell and studied for his First Mate's ticket. On securing this he returned to a windjammer as second officer. He left the sea again for his Master's ticket and after sailing as skipper for a short time he turned his thoughts to steamships and joined the N. D. L. as fourth officer of the old Prince Hendrik, and sailed for Shanghai.

Captain Brandt has made a host of friends during his voyaging out here and has grown to like the East very much. When the N.D.L. started a passenger and freight service from Singapore to Bangkok, Captain Brandt was given command of the s.s. Dell.

## WAR SERVICE

When war was declared, in 1914, he offered his service to his country and was made a commander of one of the famous German patrol boats in the dangerous North Sea. He served throughout the war in this capacity and after the armistice once more associated himself with the N.D.L., being appointed to the m.v. Bremerhaven, which is still running regularly to the East.

Captain Brandt has a wife and two children, a boy and a girl, but so far the boy is only 17 years of age, has shown no inclination to follow in the footsteps of his father.

## NEWSBOYS' CLUB

A project for the formation of a club for newspaper boys of the Chinese newspapers, which was put forward by the Rev. Bishop R. O. Hall some time ago, will come to pass provided the co-operation of the Chinese newspapers is forthcoming.

An ad hoc committee was formed to which Mr. W. Schofield and Mr. R. C. H. Lim were elected, as members at a meeting held in Mr. Lim's Office recently.

The aims of the Chinese Newspaper Boys' Club, as it will be named, are to find employment for young offenders; to form recreation clubs for newspaper boys; and to teach members of the Club how to spend their spare time in unwholesome recreation.

Defendant agreed but said that he had returned to find a friend to take him back to Kwong Chow Wan.

After further deliberation, the Magistrate committed defendant to stand his trial at the next Sessions.

When Chan Yuen, 23, unemployed, appeared before Mr. Wynne-Jones at the Kowloon Magistrate yesterday on a charge of returning from banishment he was sentenced to 12 months' hard labour and was warned that if he came back again he would be committed to the Supreme Court. Defendant was banished in November, 1934, for a period of ten years and had against him a previous conviction for a breach of the Deportation Ordinance. Defendant pleaded that he did not want to come back to Hong Kong, but was forced to because he could get no rice in the country. Inspector Shannon prosecuted.

THE EMPIRE AND  
PEACEThe Causes Of  
War

Sir George Schuster was among those who addressed one of the sessions of the National Peace Congress, which was continued at the Friends House, Easton Road, on Saturday. He said that the British Empire, if its powers were used to give expression to what were its best and truest characteristics, could be the greatest manageable force for peace in the world to-day.

The Rev. Leyton Richards, minister of Carr's Lane Church, Birmingham, presided at the first session, when "Peace and the Pacific" was discussed in relation to the Western Powers.

Captain Wedgwood Benn said that among the factors favourable for peace in the Pacific were that in Russia there was an unquestioned desire for peace and, what was the most important thing of recent years, her entry into the League of Nations; in Japan a Budgetary deficit and the possibility that the Japanese military party might overreach itself; in China the reorganization that was undoubtedly proceeding and the unity that was undoubtedly growing among the people.

Professor Ramsay Muir presided at the afternoon session, when "Peace and the British Empire" was discussed.

## THE IDEA OF WAR

Sir George Schuster said that throughout the world to-day, if policy could be directed according to the wishes of the humble ranks of the common people in all countries, the idea of war would be written off as unthinkable. It became possible only when policy was directed by leaders who lived in the sublimated strata where abstractions such as "national honour," "national greatness," "national prestige," and "self-respect" were accepted as realities, or where the less worthy motive of personal ambition might determine decisive action. Therein lay the causes of aggression, and, of course, where those causes existed in certain countries, then others who themselves were not affected by them were forced also, unwillingly, to think in terms of war. If that was the true position, then those countries where the Constitution and its working were such that Government policy most closely reflected the wishes of the masses of individuals who composed the nation must be areas making for peace. It was on that basis that he mainly rested his faith in the British Empire as an instrument of peace, for surely the essential characteristic of the British nation—a characteristic which stood out more clearly than ever to-day among surrounding changes—was that they still maintained and believed in representative democracy and that they had found a means of working that form of Government effectively.

## AMERICAN DEMOCRACY

There was one other great area of homogeneous Government comparable in importance with the British area where the ideas of representative democracy and liberty for the individual still flourished—the United States of America—and which was for that reason equally a great force for peace in the world. The powers of the British group for peace could not be fully effective in world politics unless, as well as working in harmony within itself, that group was working in harmony with the great American nation. Cheers.)

His own experience, both in private business and in handling Government policy in relation to private business, convinced him that the idea that the competing activity of private "entrepreneurs" in various countries created the most real potential cause of war was a false trail. The field of private profit-making was the most internationalized field of human activity to-day. There was no class of individuals who stood to lose more by a disturbance of the world's peace than those who were engaged in the great world businesses—oil, metals, rubber, tobacco, &c.

He believed in the value of the conception of a world state as a guiding star for national policies, and as indicating the sort of relation which was necessary for the firm establishment of world peace. He also believed that it could not be reached in one step, and that there must first be the coalescing of less universal national groups, which would then themselves come closer together. He did not see anything wrong in the gradual coalescence of nations

## CROSSWORD PUZZLE

NOTE—Figures in parentheses indicate number of letters in the words required.

## ACROSS

1. This is the marsh-trefoil, a common British plant (8)
5. Bacon is on the side of this proving that marriage is successful (6)
9. Your chance of solving this is most remote! (8)
10. A worm, pulled out from hole, no doubt, is sure to writhe and twist about (6)
12. The first step to take (10)
15. This gives one the means to keep the wolf from the door. (10)
18. Without any injury, (6)
19. The last kind of thing we want to get! (6)
20. Wandering about? (6)
21. In a saving way (8)

## DOWN

1. Gives colour to the human skin (4)
2. No mere torch can be used as a means of measuring time (11)
3. An ornamental inlay (4)
4. The man who rarely stops at home (8)
6. A Chinese fruit that Australians cultivate (6)
7. To an old Cantab of this college, the name brings "a tiny thrill" (anagram) (11)
8. Impede (6)
11. One who is particular about things of no real importance (8)

into a number of economic groups, each of which was comparatively self-contained, even though that might involve a limitation of our previous British conception of absolutely free world trade. Some increase in the security of economic foundations, even if they were thereby narrowed, was necessary in order that Governments might more securely direct their own internal social policies. What he wanted to see was that the British group should, while consolidating itself, be striving all the time to extend the area of "economic sanity" and be reaching out for wider contacts. The idea of war between any of the British nations and the United States of America was now unthinkable. Therefore, the first step he would like to see was a closing of the contact and understanding between the British nations and the United States. But was it only between the British nations and the United States that that sort of relation existed, and that closer contact might be established?

## FUTURE OF INDIA

Referring to India, Sir George Schuster said that, whatever were the motives of men like Clive and Warren Hastings, the fact that we went to India, that we restored order out of chaos, that we had taught her people to believe in our standards of justice and in our constitutional principles of individual liberty and representative democracy, and, finally, that we had given to India a unity and a national spirit which, as our own creation, made the continuance of our own domination impossible, would prove to have been one of the greatest civilizing acts in the history of the world, and to have justified a thousandfold our intervention. The proposed Constitution embodied in the present Government of India Bill was a typical British compromise which, however logical in theory, was likely to work in practice provided that it was worked in the right spirit.

Professor Gilbert Murray, chairman of the League of Nations Union, presiding at a meeting devoted to "Education and Peace," said they were sometimes misled by the anxiety of the German Government to obtain a special friendship with England. That must not mislead them as to the extremely dangerous character of the general spirit of the Hitlerite movement, and, in particular, the sort of education that was now given to the children in Germany. The mischief was that where that teaching occurred in one country it inevitably produced a reaction in the neighbouring country.

## AIRMAN HAILED AS A GOD

The reported discovery by a German airman of an unknown village in the Andes is nothing out of the ordinary in these parts, since the development of air routes throughout Central and South America.

In Yucatan not long ago a German airman made a forced landing in one such village. At first the native regarded him with suspicion. After a time he referred by signs to large lake in the district which he had seen from the air. The natives were mystified, but allowed him to lead them in its direction, cutting a way through the jungle. To their astonishment he found the lake for them. For centuries the tribe had lived a few miles off without knowing that it existed. The German airman was immediately acclaimed as a god.

## SILK INDUSTRY

## Progress Reported

[Special to the "Hong Kong Daily Press" (Copyright).]

Nanking, July 26.

According to a report issued by the Commodities Testing Bureau, native silk exports for the month of June totalled about 4,799 bales, showing an increase of 1,936 bales over the previous month. Most of this silk was shipped to Europe.

It is a well-known fact that spinning and weaving head the light industries of China. Silk weaving originated in China, but in spite of the large areas now devoted to the cultivation of mulberry trees, the low cost of manual labour, large markets, and her position of vantage, China has been unable to develop her silk industry to a great extent. However, since the Silk Commission of the Ministry of Industry came to help in improving China's sericultural industry, substantial progress has been noted in the planting of native mulberry trees, raising of silkworms and cocoons, reeling of silk and the sale of Chinese raw silk abroad.

To help the growers, the Silk Commission has distributed free 1,000,000 mulberry seeds to cultivators in Kiangsu, Chekiang, Anhwei, Hupeh, Shantung and Shensi. In contrast with the farmers' previous indifference to scientific methods of mulberry tree cultivation, farmers everywhere are now warmly welcoming free distribution, and are taking more kindly to more scientific methods.

## NEW APPOINTMENT

[Special to the "Hong Kong Daily Press" (Copyright).]

Berlin, July 25.

The Director of the Reich Chamber of Culture Hans Binkel has been appointed by the President of the Chamber Dr. Goebbels to be special commissioner for the supervision and control of activities of all non-Aryan German subjects residing in Germany in artistic and intellectual fields.

Transcendental Kuo Min

disease and inferior in quality, were exclusively used by sericultural farmers in former years, better-prepared eggs have grown more and more popular with the egg-rearers.

In Chekiang province alone, 100,000 eggs-cards were distributed in the fall of 1932. But the number has been increased to 250,000 the spring of 1933, 400,000 in the spring of 1934, and 500,000 in the fall of that year. A phenomenal increase was witnessed in the spring of this year when 775,000 eggs-cards were distributed.

Increased production from the improved cocoons has also been recorded. During last spring in Chekiang, 123,000 pounds of improved cocoons were collected by the Sericultural Improvement Commission of the Chekiang Government.

## CAMERA'S AID

## To Exploration

The Duke of Kent spoke on the importance of aerial photography as a means of the collection of accurate knowledge of the earth's surface at the annual dinner of the Royal Geographical Society at the Connaught Rooms. Major-General Sir Percy Cox, the president, was in the chair.

In proposing the toast of "the Society," the Duke of Kent said that it was a never-ceasing pleasure to him to see new countries and different peoples.

The Duke continued:—"The romantic days are over when a small band of men could sail straight into the unknown from an English port. Now we have wireless and the most elaborate forms of transport to help us, but there are still vast areas of the earth's surface that remain unknown. Perhaps the best means of exploring these tracts is by air. From an aeroplane it is possible to see at a glance great expanses of country; it is also possible to cover great distances in a short time. The Everest flight is a case in point. Here the months required to approach Everest on foot were reduced to a few hours. Just flying over a given area, though interesting enough, is not sufficient in itself, however. A record must be kept and for this purpose there is no better method than with the camera.

"Aerial survey is one of the very latest aids to the collection of accurate knowledge of the earth's surface. It must not be thought that photographs from an aeroplane and maps are interchangeable terms. There are two distinct branches in the subject of aerial photography; that is to say, photographs may be taken with the camera either pointed vertically downwards or obliquely. Naturally photographs taken vertically approach nearest to the ordinary map as we know it, but it cannot be said that a vertical photograph alone gives an accurate representation of any particular area of land.

## OBlique PHOTOGRAPHS

"Anybody who has done much flying knows that from a certain height undulations in the ground become quite invisible, and therefore a photograph taken vertically, although it will give some idea of the country and will include any remarkable or outstanding objects, may ignore completely important but less striking features. The technique of plotting these vertical photographs and rendering them as maps is, I understand, very well developed, but very lengthy. From the explorer's point of view oblique photographs are far more valuable. Oblique photographs sometimes show entirely new features, as for example, the southern face of Mount Everest, or the splendid waterfalls along the Kaieater escarpment in British Guiana. These falls are situated in vast and unmaped forests; there are no surveyed ground marks, and not even the plan, still less the height of the falls themselves, can be determined with any accuracy.

"It is not only from the point of view of the geographer that aerial photography is of great importance. The archaeologist, the miner, and the naturalist among others all use the aerial camera with great effect. If I have spoken rather at length on the subject of aerial photography it is because I feel that this branch of the science of geography is one that will assume great importance in the next few years. (Hear, hear.)

When the British Graham Land expedition requires I understand that it will have a great quantity of photographs of new territory. These photographs will prove invaluable in the hands of expert geographers. In giving the toast of the Royal Geographical Society I should like to say that I hope the prosperity of its past will be increased in future years and that the expansion of the work of the society will be such that among other things it will be able to make full use of all the aerial photographs brought home by explorers from every corner of the world." (Cheers.)

## THE EVEREST

The President, in reply, reminded those present that the Duke of Kent dined with the society in 1929, at which time the question of an attempt on Everest was before the public. Those who were not already in the know would be interested to hear that there was another expedition now in prospect. Since 1929 they had had one expedition—that was in 1933, under Mr. Hugh Ruttledge. Now they were going to have another in 1935-36. They had permission for the whole year, and had decided to run the expedition on rather different lines. They had sent out a small party to spend the pre-monsoon period in the precincts of Everest, and they would see the conditions of the mountain at the end of the monsoon. Next spring they would send

## H. K. STOCK EXCHANGE

### YESTERDAY'S OFFICIAL QUOTATIONS

The past week has been a particularly dull and uneventful one, and it would seem that we have stepped rather abruptly into the usual midsummer dullness. Although there have been improvements here and there, rates for the most part have shown an easier tendency. Prospective buyers of most stocks are holding off for lower rates.

## THE EXCHANGE MARKET

### MESSRS. ROZA BROS

Silver prices were again unchanged yesterday, the quotations remaining at 30 3/16 for Ready and 30 5/16 for Forward. Silver advices reported the American Government and Indian speculators as having bought. China and speculators sold. The market closed steady.

In America the rate was unchanged at 67 1/2 for spot. The London/New York cross-rate higher at 49 1/2 and the New York/London rate was also higher at 49 1/2.

### Market

Appeared during the early part of the morning but at the lower level the tone was steady.

### Sterling

Opened with buyers at 2 1/4 for near with business reported subsequently at 2 1/4 for August and 2 1/4 for second half of August. Later offers at 2 1/4 were accepted for August delivery, and 2 1/4-9/16 was also arranged for second half of August and September. The market closed at 1 p.m. with sellers at 2 1/4-7/16 for July, 2 1/4 for August and 2 1/4-9/16 for September, buyers at 2 1/4-9/16 for July and second half of August and 2 1/4 for September.

### U.S. Dollars

Business was done early in the morning at 52 1/2 for cash and August and 53 for October. The market closed at 1 p.m. with sellers at 52 1/2 for July, 52-11/16 for August and 52-13/16 for September, buyers at 52 1/2 for July/August and probably 52-13/16 for September.

### Shanghai Dollars

Sellers were quoted at 135 1/2 for near delivery.

### Shanghai Market

Opened with sellers at 1 1/8-13/16 and closed slightly lower at 1 1/8 for spot. U.S. Dollars—opened with sellers at 35 1/2 for spot and closed 1 1/8 lower at 33-13/16 for near delivery.

### IN THE AFTERNOON

### Sterling

Business was done at 2 1/4 for second half of August/Sept. followed by transactions at 2 1/4-7/16 for second half of August/Sept. and 2 1/4 was also arranged for August delivery. The market then re-acted and offers at 2 1/4 were accepted for second half of September and September, 2 1/4-7/16 was also done for second half of August and 2 1/4 for cash. The market closed with sellers at 2 1/4 for July/August and 2 1/4-7/16 for September, buyers at 1 1/8 higher respectively.

### U.S. Dollars

Business was reported in the afternoon at 52-9/16 for August delivery and 52 1/2 was also arranged for second half of August. The market closed with sellers at 52 1/2 for July, 52-7/16 for August and 52-9/16 for September, buyers at 1 1/8 higher respectively.

## DUTCH BANK RATE

### Advance Forced By Events

[Special to the "Hong Kong Daily Press" (Copyright).]

Amsterdam, July 25.

That more than a century has gone by, was recalled on Thursday by several men in the finance world here since the Nederlandsche Bank was obliged to raise the bank rate by two per cent. at one time.

This happened during the crisis of 1823 and again in 1825 but even in the critical days of August 1914 it was only found necessary to raise the bank rate to 14 per cent.

In an article "Algemeen Handelsblad" said that this most exceptional measure proves that the government is determined to hold the stability of the guilder at whatever cost.

The bankrate rise, continues the paper, will prove effective, because the government is capable of satisfying all demands that can arise. Political reasons alone might prove threatening.

"Nieuwe Rotterdamse Courant" declares that the bank has taken steps to repulse attacks on the guilder even in the event of further complications arising from the political situation. For instance the Nederlandsche Bank has taken steps to work hand in hand with the Banque de France for the defence of the guilder.

An increase in the bank rate by two per cent. was necessitated solely by the political crisis in the bourse which remained steady on Thursday. The view is gaining ground that the parliamentary crisis will be soluble without the resignation of the cabinet.

Transocean Kuo Min.

## BERLIN SHAREMARKET

[Special to the "Hong Kong Daily Press" (Copyright).]

Berlin, July 25.  
The sharemarket was exceedingly dull on Thursday, the bourse being profoundly incensed by the present Dutch crisis and the sudden rise of the bankrate in Holland and also the situation between Abyssinia and Italy.

Goods not cleared within 8 days including date of arrival will be subject to rent. No Fire Insurance will be effected by us in any case whatever. Damaged Packages must be left in the Godown for examination by the Consignees and the Company's Surveyors, Messrs. Goddard & Douglas, at 10 a.m. on Mondays and Thursdays, within the Free Storage period. Consignees are specially notified that it is necessary for a Revenue Officer to be present at the examination of damaged dutiable cargo. All Claims against the Steamer must be presented to the Underwriter on or before 14th Aug., 1935, or they will not be recognized. No Claims will be admitted after the Goods have left the Godown. MACKINNON & MACKENZIE & Co., Agents.

Hong Kong, 26th July, 1935. [3696]

### CONSIGNEE NOTICES.

### CONSIGNEES' NOTICE.

### BURNS PHILP LINE.

### FROM MELBOURNE, SYDNEY, SALAMAU, RAHAUL, SANDAKAN AND MANILA.

### M.V. "NEPTUNA"

CONSIGNEES of Cargo are hereby notified that all Goods are being landed at their risk into the hazardous and/or extra hazardous Godowns of the HONG KONG AND KOWLOON WHARF AND GODOWN COMPANY, LTD., and whomever from the wharves. Delivery may be obtained. No Claims will be admitted after the Goods have left the Godowns, and all Goods remaining undelivered after the 30th July, 1935, will be subject to rent. All Claims against the Steamer must be presented to the Underwriter on or before the 12th Aug., 1935, or they will not be recognized. To comply with the General Bonded Warehouse Regulations, consignees must have a Revenue Officer in attendance when damaged dutiable goods are examined. All broken, chafed, and damaged Goods are to be left in the Godowns, where they will be examined on the 29th July, 1935, at 10 a.m., by Messrs. Goddard & Douglas. No Fire Insurance has been effected. Bills of Lading will be countersigned by GIBB, LIVINGSTON & Co. Ltd., Agents.

Hong Kong, 23rd July, 1935. [3686]

### NORDDEUTSCHER LLOYD, BREMEN.

### THE Motor ship "SAAL"

### Having arrived from BREMEN, HAMBURG and Ports, consignees of cargo are hereby notified that their cargo is being landed at their risk into the Godowns of the Hong Kong and Kowloon Wharf and Godown Co., Ltd., Kowloon, where Delivery can be obtained. Consignees are further notified that the Motor ship "SAAL" has taken at HAMBURG & BREMEN through cargo for HONG KONG ex S.S. "HINDALSTER" S. S. "KORIN" S. S. "PAUL I. M. HUSE" S. S. "KORIN" S. S. "ERNA" S. S. "ERNA" and S.S. "OLIVA" from Gdynia, HALSING, ROTKA, BERGEN, and RIGA. All Goods remaining undelivered after the 1st August, 1935, will be subject to rent. No Fire Insurance will be effected by us in any case whatever. Damaged Packages must be left in the Godown for examination by the Consignees and the Company's Surveyors, Messrs. Anderson & Ash, at 10 a.m. on the 31st July, 1935. Consignees must have a Revenue Officer in attendance when damaged dutiable goods are examined by the Company's surveyors. No Claims will be admitted after the Goods have left the Godown, and all claims must be presented within Two Weeks of the Ship's arrival date, after which date they will not be recognized. Consignees are requested to surrender their Bills of Lading to the Underwriter for Counter-signature.

Now is the time to visit Australia & New Zealand

lands of Sunshine and Romance. "Down Under" you will feel a new being and even if you are not inclined towards fishing, shooting or mountaineering you will find that the Antipodes have plenty to offer you, including 20/- for your pound.

On the way down your life aboard will be as you wish, quiet or hectic for the E. & A. will humour your every whim.

And by the way, there is no additional charge for Deck Cabins and there is of course a Sun Deck Swimming pool, an Orchestra and a fine Laundry.

A Surgeon and Stewards are at your disposal and last but not least—we had almost forgotten—the cuisine will set you listening eagerly for the Gong.

Regular monthly sailings from Hong Kong to Shanghai and Japan and Hong Kong to Australia.

Hong Kong to Sydney—10 days.

Frequent connections from Australia with the following:—

The Union S.S. Co.'s Steamers to the United Kingdom via New Zealand, Vancouver, San Francisco, etc.

The P. & O. Royal Mail Steamers to London and

The P. & O. Branch Service of Steamers to London via Suez.

The New Zealand Shipping Co.'s Steamers for Southampton and London via Panama Canal.
